

# RELAPSE PREVENTION PLANNING

## Recognize the Steps of a Relapse

### Step 1

The first step is emotional

Your subconscious mind is working, but you are not fully aware of it happening. It can still influence your actions and the decisions you make.

### Step 2

The second step is mental

Mental relapse is the moment you begin to think about going back to that old life. You also start to remember all the good times you had during your addiction. You choose to forget the bad times that came with it.

### Step 3

The third step is physical

Physical relapse is the part that no recovering addict wants to do. You have listened to that little voice in your head that tells you just one more time will be ok.

Don't listen to that voice that tells you one more is gonna be okay!
