Foremost, I would like to express my sincere gratitude to my advisor Prof. Ying Wu for the continuous support of my Ph.D study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study.

Besides my advisor, I would like to thank the rest of my thesis committee: Prof. Aggelos K.Katsaggelos, Prof. Thrasyvoulos N.Pappas, and Dr. James Crenshaw, for their encouragement, insightful comments, and hard questions.

My sincere thanks also goes to Dr. James Crenshaw, Dr. Senthil Periaswamy, and Dr. Qiong Liu, for offering me the summer internship opportunities in their groups and leading me working on diverse exciting projects.

I thank my fellow labmates in Northwestern Vision Group: Gang Hua, Ting Yu, Zhimin Fan, Shengyang Dai, Junsong Yuan, Jiang Xu, Jialue Fan, and Neelabh Gupta, for the stimulating discussions, for the sleepless nights we were working together before deadlines, and for all the fun we have had in the last four years. Also I thank my friends in Tsinghua University: Chen Fan, Wensheng Wang, Bo Qin, Xiwei Wang, Yonggang Zhao, Hua Chen, Junlin Li, and Rui Zhou. In particular, I am grateful to Dr. Chen Fan for enlightening me the first glance of research.

Last but not the least, I would like to thank my family: my parents Siyu Yang and Xiaolan Ding, for giving birth to me at the first place and supporting me spiritually throughout my life.

Balas,2018-12-14 The book covers all the important aspects of research methodology and addresses the specific requirements of engineering students such as methods and tools in detail It also discusses effective research in engineering today which requires the ability to undertake literature reviews utilizing different online databases to attribute credit for any prior work mentioned to respect intellectual property rights while simultaneously maintaining ethics in research and much more Further the book also considers soft skills like research management and planning dealing with criticism in research and presentation skills which are all equally important and need to include in research methodology education Lastly it provides the technical knowhow needed to file patents in academia an important area that is often ignored in research methodology books The book is a particularly valuable resource for PhD students in India and South East Asia as research methodology is a part of their coursework *Papers Presented at the FAO/UNEP/WHO/IOC/IAEA Meeting on the Biogeochemical Cycle of Mercury in the Mediterranean, Siena, Italy, 27-31 August 1984* ,1986-01-01

How to Write a Research Paper: A Guide Book for Neophyte Students Dr. Rashmee Yadav,2023-02-14 ABOUT THE BOOK The book How to write a Research Paper Guide book for neophyte students composed by three youngsters Dr Rashmee Yadav Dr Brij Vikash Singh and Dr Mithesh Verma is a fantastic effort in this direction They have covered almost all the areas of research paper writing process and how to write a research paper etc The book is based on the research paper writing process The author s main focused on this book How to write a Research Paper Guide Book for the neophyte students This book is helpful to students writing research paper in proper way because plenty of research papers are written every year But in many of them research methodology aspect is

not given a considerable attention and because of which the research papers end up in just being endless words containing stories leading to less or no sense. It should be noted that the quality in research articles comes from the extensive planning and in depth research before starting writing them. This is true even for management research papers. Writing a research paper analyzes a perspective or argues a point. Regardless of the type of research paper the researcher is writing, the researcher should present his own thinking backed up by others' ideas and information. Research paper as a result of the research in the teaching of writing discussions with colleagues and own experiences we have developed a detailed approach to writing research papers and the approach is presented here. Instead of focusing on one research paper we have focused on the process of research writing through a series of shorter writing exercises. Students begin by having to carefully think about a topic of research and by developing a working idea. They then write a series of shorter essays that explore that topic. All along the way students are continuing to research and revise their working proposal so that by the end of the term their thinking about their original topic of research has evolved. This book is titled **How to write a Coursework? , Research Methods in Dentistry** Fahimeh Tabatabaei, Lobat Tayebi, 2022-04-09. This classroom tested textbook will assist dental students with their academic research activities and help them to be competitive in today's fast growing research environment. It is designed as a core text for dental school classes such as Research Methodology and Scientific and Technical Writing as well as Responsible Conduct of Research (RCR) training but will also be a valuable resource for students and researchers in related fields such as the medical sciences and biomedical engineering. The authors start the book by explaining key concepts and common approaches in dental research both in basic science and clinical dentistry. They then familiarize readers with evidence based research in dentistry and how to write a systematic review, explain the process of designing and presenting a proposal, discuss reporting results both in scientific and clinical research and cover ethics in research highlighting the significance of adherence to ethics both in animal as well as human studies. Research Paper PNW, 1978. *A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition* Kate L. Turabian, 2013-04-09. A little more than seventy five years ago Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite and formally submit research writing. Seven editions and more than nine million copies later the name Turabian has become synonymous with best practices in research writing and style. Her Manual for Writers continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition *A Manual for Writers of Research Papers, Theses and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three part structure beginning with an overview of the steps in the research and writing process including formulating questions, reading critically, building arguments and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles: notes bibliography and author date. An array of source types with contemporary examples and detailed guidance on citing online resources. The final section treats all

matters of editorial style with advice on punctuation capitalization spelling abbreviations table formatting and the use of quotations Style and citation recommendations have been revised throughout to reflect the sixteenth edition of The Chicago Manual of Style With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up to date listing of critical resources available A Manual for Writers remains the essential resource for students and their teachers
