*Teaching and Learning Argumentative Writing in High School English Language Arts Classrooms* George Newell, David Bloome, Alan Hirvela, 2015-06-05 Focused on the teaching and learning argumentative writing in grades 9-12, this important contribution to literacy education research and classroom practice offers a new perspective, a set of principled practices, and case studies of excellent teaching. The case studies illustrate teaching and learning argumentative writing as the construction of knowledge and new understandings about experiences, ideas, and texts. Six themes key to teaching argumentative writing as a thoughtful, multi-leveled practice for deep learning and expression are presented: teaching and learning argumentative writing as social practice; teachers' epistemological beliefs about argumentative writing; variations in instructional chains; instructional conversations in support of argumentative writing; as deep learning and appreciation of multiple perspectives; contextualized analysis of argumentative writing; and the teaching and learning of argumentative writing and the construction of rationalities.

**Composition and Grammar** ENC1101 Editorial Board, 2022-06-15 We live in a world of words. The way we interact with our fellow humans is very often based on the language that always surrounds us, whether it be the messages we send, the news we read, or the assignments we complete in classes that give us the education intended to lead us to success. What might be the best way to navigate the complexity of language, especially in a first-year composition course? This book addresses these issues by presenting lessons, examples, and student samples through an approach that is friendly, conversational, and realistic. Created by actual instructors of composition at HCC, this book includes many resources to guide composition students of different skill levels. In-depth overviews of reading, writing, and revising; engaging exercises that anticipate and address the most common errors of writers; actual student samples that provide the basis of class discussions and analysis; with guidance that includes both theory and practice. **Composition and Grammar for HCC** by HCC provides students with the skills they need for their educational goals, their careers, and their lives.
