May 15, 20--

To Whom It May Concern:

This letter is a personal recommendation for Justin Horter. Justin has been a member of United Youth Volunteers for the past seven years. During that time, I have come to know Justin very well.

Justin has been actively involved in our youth volunteer program. He has made a fine contribution to the organization and has assisted in fund-raising projects during the past four years. When Justin began studying communications at his college, he showed a real enthusiasm for his studies. Using the skills he was learning in school, he became an organizer for United Youth Volunteers' fund-raising projects. His advertising efforts for these projects helped them become far more successful than we had anticipated.

I believe that Justin's excellent character and his desire to succeed in his chosen career will make him an excellent employee.

Sincerely,

Norman Mazer  
Coordinator  
United Youth Volunteers

*Dissertation Research and Writing for Built Environment Students*

Shamil G. Naoum, 2019-05-14 *Dissertation Research and Writing for Built Environment Students* is a step by step guide to get students through their final year research project. Trusted and developed over three previous editions, the new fourth edition shows you how to select a dissertation topic, write a proposal, conduct a literature review, select the research approach, gather the data, analyse and present the information, and ultimately produce a well-written dissertation. The book simplifies dissertation research and writing into a process involving a sequence of learnable activities and divides the process into three parts. Part One covers the necessary groundwork, including identifying the problem, writing a proposal, and reviewing the literature. Part Two covers the research design and includes approaches and techniques for data collection and constructing and sampling a questionnaire. Part Three covers measurement of data, analysis of data with SPSS, structuring and writing the whole dissertation, and supervision and assessment. This new edition is packed with updated examples and research samples, making this the ideal resource for students involved in research in built environment subjects such as construction management, construction project management, facilities management, real estate, building surveying, quantity surveying, and civil engineering.
