Rocket Ranch Jonathan H. Ward, 2015-06-26 Jonathan Ward takes the reader deep into the facilities at Kennedy Space Center to describe NASA's first computer systems used for spacecraft and rocket checkout and explain how tests and launches proceeded Descriptions of early operations include a harrowing account of the heroic efforts of pad workers during the Apollo 1 fire A companion to the author's book Countdown to a Moon Launch Preparing Apollo for Its Historic Journey this explores every facet of the facilities that served as the base for the Apollo Saturn missions Hundreds of illustrations

complement the firsthand accounts of more than 70 Apollo program managers and engineers The era of the Apollo Saturn missions was perhaps the most exciting period in American space exploration history Cape Canaveral and Kennedy Space Center were buzzing with activity Thousands of workers came to town to build the facilities and launch the missions needed to put an American on the Moon before the end of the decade Work at KSC involved much more than just launching rockets It was a place like none other on Earth Technicians performed intricate operations and hazards abounded everywhere including lightning fire highly toxic fuels snakes heat explosives LOX spills and even plutonium The reward for months of 7 day workweeks under intense pressure was witnessing a Saturn V at liftoff For anyone who ever wished they had worked at Kennedy Space Center during the Apollo era this book is the next best thing The only thing missing is the smell of rocket fuel in the morning

Handbook on the Economics of Retailing and Distribution Emek Basker, 2016-01-29 This Handbook explores and critically examines current research in economics and marketing science on key issues in retailing and distribution Providing a rich perspective for the discussion of public policy contributions from several disciplines and continents range from the history of chains and the impact of multinational retailers on international trade patterns to US merger policy in the retail context the rise of the Internet and consumer to consumer sales The chapters address methodological issues such as the structural estimation of entry games between retailers productivity measurement when both inputs and output are not fully observable and demand estimation with variable assortment Policy issues explored include mergers zoning and the regulation of buyer power while other chapters address some of the recent exciting developments in technology retail formats and data availability The book goes on to study the changes in online retailing and big data and to examine competition in specific retail sectors including gasoline stations automobile dealerships supermarkets and big box retail This state of the art Handbook is an essential reference for students and academics of economics and marketing science and offers an outsider's perspective to specialists in operations research data analytics geography and sociology
