*Start with Why* Simon Sinek, 2009-10-29 The inspiring life changing bestseller by the author of LEADERS EAT LAST and TOGETHER IS BETTER In 2009 Simon Sinek started a movement to help people become more inspired at work and in turn inspire their colleagues and customers Since then millions have been touched by the power of his ideas including more than 28 million who have watched his TED Talk based on Start With Why the third most popular TED video of all time Sinek opens by asking some fundamental questions Why are some people and organizations more innovative more influential and more profitable than others Why do some command greater loyalty from customers and employees alike Even among the successful why are so few able to repeat their success over and over Start With Why shows that the leaders who've had the greatest influence in the world think Martin Luther King Jr Steve Jobs and the Wright Brothers all think act and communicate the same way and it's the opposite of what everyone else does Sinek calls this powerful idea The Golden Circle and it provides a framework upon which organizations can be built movements can be led and people can be inspired And it all starts with WHY

*Automotive News*, 2008 **The Difference** Scott E. Page, 2025-05-13 In this landmark book Scott Page redefines the way we understand ourselves in relation to one another The Difference is about how we think in groups and how our collective wisdom exceeds the sum of its parts Why can teams of people find better solutions than brilliant individuals working alone And why are the best group decisions and predictions those that draw upon the very qualities that make each of us unique The answers lie in diversity not what we look like outside but what we look like within our distinct tools and abilities The Difference reveals that progress and innovation

may depend less on lone thinkers with enormous IQs than on diverse people working together and capitalizing on their individuality Page shows how groups that display a range of perspectives outperform groups of like minded experts Diversity yields superior outcomes and Page proves it using his own cutting edge research Moving beyond the politics that cloud standard debates about diversity he explains why difference beats out homogeneity whether you re talking about citizens in a democracy or scientists in the laboratory He examines practical ways to apply diversity s logic to a host of problems and along the way offers fascinating and surprising examples from the redesign of the Chicago El to the truth about where we store our ketchup Page changes the way we understand diversity how to harness its untapped potential how to understand and avoid its traps and how we can leverage our differences for the benefit of all
