Anchored in asset-based pedagogy, this framework applies a systematic Spanish literacy approach to biliteracy by weaving together a tapestry of relevant instructional components including phonemic and phonological awareness, oral decoding, background knowledge, vocabulary, language structures, verbal reasoning, and literacy knowledge. What sets this Spanish developmental literacy framework apart is its approach to Spanish reading instruction that is based on linguistically authentic pedagogy, not on English language practices. Teaching Reading in Spanish includes the DCC Leveling Instrument, a standards-based practical instructional tool that guides teachers through the process of efficiently and accurately determining the reading levels of authentic Spanish text. DCC Lectura provides teachers with the tools that they need to guide their students to become skilled readers through appropriately challenging books that act as multicultural mirrors, windows, and sliding glass doors.
