Intervention Concepts presented this marking period:

During our intervention time, I work with students to expand basic reading skills required of beginning readers. Children learn strategies for decoding new and unknown words and for answering explicit comprehension questions found within the text and inferential questions in which they have to think beyond the text. Each day, we engage in the following activities:

- Symbol identification: consonants, digraphs, short and long vowels, sound combinations
- Reading vocabulary discussion
- Story reading to develop reading accuracy and fluency
- Comprehension conversations to develop reading comprehension

STUDENT DATA:

Phonological Awareness Literacy Screening (PALS)

PALS is a research-based assessment tool for early literacy skills. Students are screened in the fall, the March, and the Spring with this essential diagnostic and progress monitoring tool to measure their acquisition of the fundamental components of literacy: alphabet knowledge, phonological awareness, spelling, and reading in context and reading vocabulary in authentic sight words.

Assessment of Student	Is your student achieving Grade Level Achievement?	What does the data indicate about student's skill?	What does the data tell you about the student's achievement?	What will you do differently to improve?
Fall				
March				
Spring				

Please see attached PALS Student Summary for a more detailed look at your child's performance on this screening. Contact me with any questions.

Documentation and Reimbursement for Speech-Language Pathologists Nancy Swigert, 2024-06-01 Although it is the least noticed by patients effective documentation is one of the most critical skills that speech language pathologists must learn With that in mind *Documentation and Reimbursement for Speech Language Pathologists Principles and Practice* provides a comprehensive guide to documentation coding and reimbursement across all work settings The text begins with section 1 covering the importance of documentation and the basic rules both ethical and legal followed by an exploration of the various documentation forms and formats Also included are tips on how to use electronic health records as well as different coding systems for diagnosis and for procedures with an emphasis on the link between coding reimbursement and the documentation to support reimbursement Section 2 explains the importance of focusing on function in patient centered care with the ICF as the conceptual model then goes on to cover each of the types of services speech language pathologists provide evaluation treatment planning therapy and discharge planning Multiple examples of forms and formats are given for each In section 3 Nancy Swigert and her expert team of contributors dedicate each chapter to a work setting in which speech language pathologists might work whether adult or pediatric because each setting has its own set of documentation and reimbursement challenges And since client documentation is not the only kind of writing done by speech language pathologists a separate chapter on other professional writing includes information on how to write correspondence avoid common mistakes and even prepare effective PowerPoint presentations Each chapter in *Documentation and Reimbursement for Speech Language Pathologists* contains activities to apply information learned in that chapter as well as review questions for students to test their knowledge Customizable samples of many types of forms and reports are also available Included with the text are online supplemental materials for faculty use in the classroom *Documentation and Reimbursement for Speech Language Pathologists Principles and Practice* is the perfect text for speech language pathology students to learn these vital skills but it will also provide clinical supervisors new clinicians and speech language pathologists starting a private practice or managing a department with essential information about documentation coding and reimbursement

Early's Physical Dysfunction Practice Skills for the Occupational Therapy Assistant E-Book Mary Beth Patnaude, 2021-01-15 NEW Intervention Principles for Feeding and Eating chapter is added to this edition NEW Reorganization of all chapters aligns content more closely with the Occupational Therapy Practice Framework NEW Combined chapters make the material more concise and easier to navigate Made to Hear Laura Mauldin, 2016-02-29 A

mother whose child has had a cochlear implant tells Laura Mauldin why enrollment in the sign language program at her daughter's school is plummeting The majority of parents want their kids to talk Some parents however feel very differently because curing deafness with cochlear implants is uncertain difficult and freighted with judgment about what is normal acceptable and right *Made to Hear* sensitively and thoroughly considers the structure and culture of the systems we have

built to make deaf children hear Based on accounts of and interviews with families who adopt the cochlear implant for their deaf children this book describes the experiences of mothers as they navigate the health care system their interactions with the professionals who work with them and the influence of neuroscience on the process Though Mauldin explains the politics surrounding the issue her focus is not on the controversy of whether to have a cochlear implant but on the long term multiyear undertaking of implantation Her study provides a nuanced view of a social context in which science technology and medicine are trusted to vanquish disability and in which mothers are expected to use these tools Made to Hear reveals that implantation has the central goal of controlling the development of the deaf child s brain by boosting synapses for spoken language and inhibiting those for sign language placing the politics of neuroscience front and center Examining the consequences of cochlear implant technology for professionals and parents of deaf children Made to Hear shows how certain neuroscientific claims about neuroplasticity deafness and language are deployed to encourage compliance with medical technology
