From High School to College Michael W. Kirst,2004-04-30 Publisher Description *Guide to College Writing Assessment* Peggy O'Neill,Cindy Moore,Brian Huot,2009-04-15 While most English professionals feel comfortable with language and literacy theories assessment theories seem more alien English professionals often don't have a clear understanding of the key concepts in educational measurement such as validity and reliability nor do they understand the statistical formulas associated with psychometrics But understanding assessment theory and applying it by those who are not psychometricians is critical in developing useful ethical assessments in college writing programs and in interpreting and using assessment results A Guide to College Writing Assessment is designed as an introduction and source book for WPAs department chairs teachers and administrators Always cognizant of the critical components of particular teaching contexts O'Neill Moore and Huot have written sophisticated but accessible chapters on the history theory application and background of writing assessment and they offer a dozen appendices of practical samples and models for a range of common assessment needs Because there are numerous resources available to assist faculty in assessing the writing of individual students in particular classrooms A Guide to College Writing Assessment focuses on approaches to the kinds of assessment that typically happen outside of individual classrooms placement evaluation exit examination programmatic assessment and faculty evaluation Most of all the argument of this book is that creating the conditions for meaningful college writing assessment hinges not only on understanding the history and theories informing assessment practice but also on composition programs

availing themselves of the full range of available assessment practices **Resources in Education** ,1998 *Georgia Journal of Science* ,1990 **Community College Mathematics** Brian Cafarella,2022-06-29 This book explores the rich history of community college math with a specific focus on gatekeeper math classes Gatekeeper math classes include courses such as college algebra introduction to statistics and all developmental math classes For community colleges successful completion of these classes is imperative for student retention This book presents a decade by decade analysis of the history of community college mathematics The author employs a mix of conceptual empirical and quantitative research The empirical research stems from interviews with 30 community college faculty members from seven community colleges From the 1970s to the pandemic in the early 2020s the book explores math curricula as well as trends initiatives teaching practices and mandates that have impacted community college math The positives and negatives of such trends initiatives and mandates are presented along with suggestions on how to apply such knowledge going forward The author addresses the key questions How can we build a future model for community college gatekeeper math classes that is both successful and sustainable Additionally how can we learn from the past and the present to build such a model This book will be ideal for students in graduate programs focusing on community college leadership or developmental education leadership as well as all those hoping to improve success rates in community college mathematics programs **Nursing Programs 2011** Peterson's,2010-05-18 Nursing Programs 2011 profiles nearly 3 200 undergraduate graduate and postdoctoral options at more than 700 institutions in the United States and Canada A special section The Nursing School Advisor includes in-depth articles about degree and career options the admissions process and specialized programs for professions such as nurse practitioner and clinical specialist Abstracts of Papers Presented to the American Mathematical Society American Mathematical Society,2005 The University of Georgia Self-study, 1980 University of Georgia,1980 Education Politics for the New Century Douglas E. Mitchell,Margaret E. Goertz,1990 The 1989 Yearbook commemorates the PEA's first twenty years by concentrating on the changing social economic technological and political forces that will shape education politics and policy into the twenty-first century The Yearbook focuses on the roles to be played by education professionals local citizen groups government agencies and business leaders in shaping education policy responses to racial and ethnic segregation school restructuring technology utilization and the development of education politics and policy **Crossing the Finish Line** William G. Bowen,Matthew M. Chingos,Michael McPherson,2009-09-08 Why so many of America's public university students are not graduating and what to do about it The United States has long been a model for accessible affordable education as exemplified by the country's public universities And yet less than 60 percent of the students entering American universities today are graduating Why is this happening and what can be done Crossing the Finish Line provides the most detailed exploration ever of college completion at America's public universities This groundbreaking book sheds light on such serious issues as dropout rates linked to race gender and socioeconomic status Probing graduation rates at

twenty one flagship public universities and four statewide systems of public higher education the authors focus on the progress of students in the entering class of 1999 from entry to graduation transfer or withdrawal They examine the effects of parental education family income race and gender high school grades test scores financial aid and characteristics of universities attended especially their selectivity The conclusions are compelling minority students and students from poor families have markedly lower graduation rates and take longer to earn degrees even when other variables are taken into account Noting the strong performance of transfer students and the effects of financial constraints on student retention the authors call for improved transfer and financial aid policies and suggest ways of improving the sorting processes that match students to institutions An outstanding combination of evidence and analysis *Crossing the Finish Line* should be read by everyone who cares about the nation's higher education system College Admissions Data Sourcebook Northeast Edition Looseleaf 2010-11 ,2010-09 Choosing Students Wayne Camara,Ernest W. Kimmel,2005-03-23 This volume brings a variety of perspectives to bear on the issue of how higher education institutions can or should choose students during the early part of the 21st century Many of the contributors report on research to develop and validate potential tools to assist those responsible for admission decisions Other contributors however pose broader questions about the nature of selective admissions about institutional responses to the changing demography of those seeking to enter higher education or about the appropriate criteria of success in higher education The volume is particularly timely because the question of how changes in admission tools and processes will affect campus diversity following the recent Supreme Court decision concerning the University of Michigan Diversity is an important concern of all of the contributors and the chapter by Lee Bollinger President at Michigan at the time the court cases were filed is particularly relevant This book brings together the research that underlies a variety of proposed approaches to improving the selection of students Providing support for the integrity of the admissions process and the validity of new tools to help a higher education institution to select a diverse student body this book explores the implications of the assessment component of K 12 school reform for higher education admissions practices The diverse contributions to this volume reflect the current ferment in educational research and educational practice as institutions of higher education seek to develop a new admissions paradigm for coming decades following the University of Michigan decisions This book is intended for those leaders and professionals who set admission policies and practices in American colleges and graduate and professional schools as well as for those scholars and scientists who research develop and validate tools for use in the process of choosing students in ways that are congruent with an institution's mission values and goals *Nursing Programs - 2010* Peterson's,2009-04-22 Presents brief profiles of over three thousand undergraduate graduate and postdoctoral nursing programs in the U S and Canada listing nursing student resources and activities degree programs and full time part time and distance learning options **The College Board College Handbook** College Entrance Examination Board,2007-06 Presents information on enrollment fields of study admission requirements expenses
