Aquaculture Project Formulation David Insull,Colin E. Nash,1990 This document is intended primarily as didactic material for use in training courses in aquaculture project formulation It can also be read as a text in its own right by government administrators and planners particularly in developing countries and by commercial investors in aquaculture The first part of the document contains a broad introduction to project formulation describing the integration of aquaculture projects within development plans the organization and management of project formulation projects and the stages of the project cycle It is not only important for projects to be satisfactorily integrated into the economy of the sub sector but also that those responsible for project formulation should be aware of the practical problems which may arise in project implementation Project formulation and implementation therefore are described briefly here as a single entity consisting of

twelve phases and the more frequently occurring problems encountered in project implementation are described. Illustrations of three actual aquaculture projects are given to show the diversity which may be encountered by planners. The second part of the document is concerned only with the six phases of project formulation encompassing project identification, preparation and appraisal. The sequence of activities carried out within each phase are described within 17 steps each including further activities or tasks. Drawing on the characteristics of these illustrative models, particular attention is given to differences of approach between the public and private sectors. *Towards Improving Global Information on Aquaculture*. Food and Agriculture Organization of the United Nations, Fisheries Department, Food and Agriculture Organization of the United Nations, 2005-01-01. In recent years the demand for reliable data and reporting on aquaculture has greatly increased, driven not only by the need to formulate and monitor sound policies and development plans but also by the reporting requirements of international agreements and by increasing public demand for transparency and accountability. This document sets out the findings of a FAO expert consultation held in January 2004 to discuss relevant issues including approval of a draft strategy and outline plan for improving information on status and trends of aquaculture. *Aquaculture Research*, 1983.

Massachusetts Aquaculture White Paper & Strategic Plan, 1995. Strategic plan explains the status and future of aquaculture; includes recommendations to overcome existing constraints and take advantage of opportunities in the fishing and shellfish industry. White paper provides an overview of inland and marine aquaculture. **2016 Catalog of Federal Domestic Assistance**. United States. Congress. Senate. Office of Management and Budget.
