before becoming the Beijing bureau chief at the Chicago Tribune and then the China correspondent for The New Yorker While abroad he often found himself making a case for America urging the citizens of Egypt Iraq or China to trust that even though America had made grave mistakes throughout its history it aspired to some foundational moral commitments the rule of law the power of truth the right of equal opportunity for all But when he returned to the United States he found each of these principles under assault In search of an explanation for the crisis that reached an unsettling crescendo in 2020 a year of pandemic civil unrest and political turmoil he focused on three places he knew firsthand Greenwich Connecticut Clarksburg West Virginia and Chicago Illinois Reported over the course of six years Wildland follows ordinary individuals as they navigate the varied landscapes of twenty first century America Through their powerful often poignant stories Osnos traces the sources of America s political dissolution He finds answers in the rightward shift of the financial elite in Greenwich in the collapse of social infrastructure and possibility in Clarksburg and in the compounded effects of segregation and violence in Chicago The truth about the state of the nation may be found not in the slogans of political leaders but in the intricate details of individual lives and in the hidden connections between them As Wildland weaves in and out of these personal stories events in Washington occasionally intrude like flames licking up on the horizon A dramatic prescient examination of seismic changes in American politics and culture Wildland is the story of a crucible a period bounded by two shocks to America s psyche two assaults on the country s sense of itself the attacks of September 11 in 2001 and the storming of the U S Capitol on January 6 2021 Following the lives of everyday Americans in three cities and across two decades Osnos illuminates the country in a startling light revealing how we lost the moral confidence to see ourselves as larger than the sum of our parts
