 - a. The grass died in this ecosystem? *All the links after the grass would decrease and the grass would overpopulate then eventually die out too.*
 - b. The number of owls tripled in this ecosystem? *The bunnies and grass would eventually die out due to more predation. The owls would too over time since their food would be depleted.*
 - c. The trees were cut down to make room for more houses? *The animals would not have a food source, so they would begin to die out.*
3. What is an adaptation? *A change in the structure or function of an animal or plant to make it better fitted for survival.*
