Objects First With Java Manual:

Objects First with Java David J. Barnes, Michael Kolling, Michael Kölling, 2003 0 13 044929 6 4492J 5 Barnes Kolling
OBJECTS FIRST WITH JAVA BlueJ is a Java development environment that runs on top of the Sun Microsystems Java Development Kit making use of the standard compiler and virtual machine It allows readers to create objects of any class and interact with their methods For the first time the traditionally difficult concepts of objects and classes are brought alive in an easily manipulable visual form This truly objects first approach within the customized BlueJ environment will revolutionize the way programming is learned The book includes a copy of BlueJ Takes a project driven approach to problem solving the book is structured along the lines of fundamental development tasks providing readers with clear coverage of the principles of object oriented programming Programmers and non programmers who want to learn Java with a state of the art approach and user friendly programming environment *Phil's Java Tutorial: Java for the Autodidact* Philip Perry, 2009-03-25 This book is a short introduction to the Java programming language focusing on the Java base language and features like JDBC and filesystem access that all programmers need A professional programmer or computer science student should be able to get through the entire book in a few nights

Learning Management Systems and Instructional Design: Best Practices in Online Education Kats, Yefim, 2013-04-30 The technical resources budgets curriculum and profile of the student body are all factors that play in implementing course design Learning management systems administrate these aspects for the development of new methods for course delivery and corresponding instructional design Learning Management Systems and Instructional Design Best Practices in Online Education provides an overview on the connection between learning management systems and the variety of instructional design models and methods of course delivery This book is a useful source for administrators faculty instructional designers course developers and businesses interested in the technological solutions and methods of online education *Altova® UModel® 2012 User & Reference Manual*,

Altova® UModel® 2013 User & Reference Manual, *Objects First with Java* David J. Barnes, Michael Kölling, 2016-05-12 A Modern Approach to Functional Programming Objects First with Java A Practical Introduction is an introduction to object oriented programming for beginners The main focus of the book is general object oriented and programming concepts from a software engineering perspective The first chapters are written for students with no programming experience with later chapters being more suitable for advanced or professional programmers The Java programming language and BlueJ the Java development environment are the two tools used throughout the book BlueJ's clear visualisation of classes and objects means that students can immediately appreciate the differences between them and gain a much better understanding of the nature of an object than they would from simply reading source code Unlike traditional textbooks the chapters are not ordered by language features but by software development concepts The Sixth Edition goes beyond just adding the new language constructs of Java 8 The book's exploration of this new language

demonstrates a renaissance of functional ideas in modern programming While functional programming isn't new in principle it's seen a boost in popularity based on the current computer hardware available and the changing nature of projects programmers wish to tackle Functional language constructs make it possible to efficiently automate currency make use of multiple cores without much effort on the side of the programmer are both more elegant and readable and offer great potential in solving the issue of parallel hardware Functional programming has become an essential part of the field and Objects First with Java gives students a basic understanding of an area they'll need to master in order to succeed in the future

Java Persistence for Relational Databases Richard Sperko, 2008-01-01 Java Persistence for Relational Databases is chock full of best practices and patterns for those of you who want to connect to databases using Java Coverage includes various database related APIs for Java like JDO JDBC including the newest 3.0 APIs and CMP Container Managed Persistence with EJB All those things you developers have wanted to know but were afraid to ask are featured inside this book It offers a realistic and multi angled look at persisting Java objects Whether your environment requires you to use JDO CMP Castor or to hand code a persistence layer using JDBC the answers all lie inside this book
