The Oxford History of the British Empire: Historiography ,1998 *Frederick Billings* Robin W. Winks,1991 The nineteenth century was the golden age of enterprise in the United States A small group of rich and powerful men changed the way we do business and forever altered the American landscape by criss crossing the country with railway lines Although less well known than the great robber barons Fredrick Billings was one of the extraordinary men of his era combining a shrewd business sense with a love of nature Born in Vermont in 1823 Billings was one of the early Forty Niners making his fortune during the gold rush becoming the first person to practice law in California and the state s first Attorney General He was also a leading conservationist he helped establish Yosemite National Park and initiated the reforestation of Vermont As a wealthy railroad entrepreneur he invested in the first northern transcontinental line the Northern Pacific of which he was later president In this definitive biography of Frederick Billings Robin Winks provides the first full length study of the nineteenth century giant An eminent historian twice nominated for the Pulitzer Prize and a recipient of the Conservationist of the Year award from the National Park Service Winks captures the many sides of Billings in a lively and enjoyable narrative We find Billings the adventurer crossing the Panama isthmus by boat mule and foot to get to California but losing his beloved sister to a fever caught on the difficult journey Billings the entrepreneur financing the Northern Pacific Railroad and then losing it in the first hostile take over in American business history and Billings the conservationist setting up a model farm in Vermont and securing valuable park land in California There are many insights into public and private life in nineteenth century America and Winks paints a vivid portrait of San Francisco during the gold rush years San Francisco was a rough town ruled by vigilante justice and Billings was one of the few citizens who attempted to maintain law and order In that tumultuous era of expansion the population of San Francisco was heavily male and in only forty years it grew to the size which it had taken Boston 250 years to attain Winks has based his biography of this powerful but charming man on a largely untapped family archive as well as extensive research in libraries across the country Deftly narrated by a leading scholar the story of Frederick Billings touches on many of the key events in nineteenth century American life revealing concerns for profit family and the land which remain crucial today National Parks ,1999-05 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization s park protection efforts National Parks Magazine uses images and language to convey our country s history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between *Parameters* ,1997 **Empires of Print** Patrick Scott Belk,2017-05-08 At the turn of the twentieth century the publishing industries in Britain and the United States underwent dramatic expansions and reorganization that brought about an increased traffic in books and periodicals around the world Focusing on adventure fiction published from

1899 to 1919 Patrick Scott Belk looks at authors such as Joseph Conrad H G Wells Conan Doyle and John Buchan to explore how writers of popular fiction engaged with foreign markets and readers through periodical publishing Belk argues that popular fiction particularly the adventure genre developed in ways that directly correlate with authors experiences and shows that popular genres of the late nineteenth and early twentieth centuries emerged as one way of marketing their literary works to expanding audiences of readers worldwide Despite an over determined print space altered by the rise of new kinds of consumers and transformations of accepted habits of reading publishing and writing the changes in British and American publishing at the turn of the twentieth century inspired an exciting new period of literary invention and experimentation in the adventure genre and the greater part of that invention and experimentation was happening in the magazines

Your Country, My Country Robert Bothwell, 2015-09-22 Canada land of hockey terrible weather unfailing politeness and little else as far as many Americans are aware For Canadians the United States is seen as a land of unparalleled opportunity and unparalleled failure a country of heights and abysses The straitlaced country in the north could hardly have much to tell about its powerhouse of a neighbor to the south eh Not so according to historian Robert Bothwell In this witty and accessible book Bothwell argues that the shared history of the United States and Canada reveals more about each country than most would suspect Your Country My Country takes readers back to the seventeenth century when a shared British colonial heritage set the two lands on paths that would remain intertwined to the present day Tracing Canadian American relations shared values and differences through the centuries Bothwell suggests that Americans are neither unique nor exceptional in terms of both their good characteristics and their bad ones He brings this contention down to the present day by examining Canadian and American differences over such questions as universal health care in domestic policy and the Iraq war in foreign policy What happens in Canada often reflects what has happened in the United States but by the same token what happens in Canada signals what could happen in its American neighbor From whatever direction this innovative volume contends Canada s story illuminates America s and vice versa

Colour-Coded Constance Backhouse, 1999-11-20 Historically Canadians have considered themselves to be more or less free of racial prejudice Although this conception has been challenged in recent years it has not been completely

dispelled In Colour Coded Constance Backhouse illustrates the tenacious hold that white supremacy had on our legal system in the first half of this century and underscores the damaging legacy of inequality that continues today Backhouse presents detailed narratives of six court cases each giving evidence of blatant racism created and enforced through law The cases focus on Aboriginal Inuit Chinese Canadian and African Canadian individuals taking us from the criminal prosecution of traditional Aboriginal dance to the trial of members of the Ku Klux Klan of Canada From thousands of possibilities Backhouse has selected studies that constitute central moments in the legal history of race in Canada Her selection also considers a wide range of legal forums including administrative rulings by municipal councils criminal trials before police magistrates and criminal and civil cases heard by the highest courts in the provinces and by the Supreme Court of Canada The extensive and detailed documentation presented here leaves no doubt that the Canadian legal system played a dominant role in creating and preserving racial discrimination A central message of this book is that racism is deeply embedded in Canadian history despite Canada's reputation as a raceless society Winner of the Joseph Brant Award presented by the Ontario Historical Society **National Parks** ,1999-11 The flagship publication of the National Parks Conservation Association National Parks Magazine circ 340 000 fosters an appreciation of the natural and historic treasures found in the national parks educates readers about the need to preserve those resources and illustrates how member contributions drive our organization's park protection efforts National Parks Magazine uses images and language to convey our country's history and natural landscapes from Acadia to Zion from Denali to the Everglades and the 387 other park units in between *Canadian Founding* Janet Ajzenstat,2007-05-28 A new interpretation of confederation contends that the founding fathers were John Locke's disciples champions of universal human rights and popular sovereignty Winner John T Saywell Prize for Canadian Constitutional Legal History 2009 Directions Home George Elliott Clarke,2012-09-26 The latest work from pioneering scholar George Elliott Clarke *Directions Home* is the most comprehensive analysis of African Canadian texts and writers to date Building on the discoveries of his critically acclaimed *Odysseys Home* Clarke passionately analyses the beautiful complexities and haunting conundrums of this important body of literature *Directions Home* explores the trajectories and tendencies of African Canadian literature within the Canadian canon and the socio cultural traditions of the African Diaspora Clarke showcases the importance of little known texts including church histories and slave narratives and offers studies of autobiography crime and punishment jazz poetics and musical composition The collection also includes studies of significant contemporary writers such as George Boyd and Dionne Brand and trailblazing African Canadian intellectuals like A B Walker and Anna Minerva Henderson With its national bilingual and historical perspectives *Directions Home* is an essential guide to African Canadian literature British Imperial Strategies in the Pacific, 1750-1900 Jane Samson,2021-02-28 The focus of this volume is Britain's trans Pacific empire This began with haphazard challenges to Spanish dominion but by the end of the 18th century the British had established a colony in Australia and had gone to the brink of war with Spain to establish

trading rights in the north Pacific These rights led to formal colonies in Vancouver Island and British Columbia when Britain sought to maintain a north Pacific presence despite American expansionism In the later 19th century the international scramble for the Pacific resulted in new British colonies and protectorates in the Pacific islands The result was a complex imperial presence created from a variety of motives and circumstances The essays selected here take account of the wide range of economic political and cultural factors which prompted British expansion creating tension in Britain's imperial identity in the Pacific and leaving Pacific peoples with a complicated and challenging legacy Along with the important new introduction they provide a basis for the reassessment of British imperialism in the Pacific region

Paul Laurence Dunbar Gene Andrew Jarrett, 2023-10-17 This biography explores the life of Paul Laurence Dunbar 1872-1906 a major nineteenth century American poet and one of the first African American writers to garner international attention and praise in the wake of emancipation While Dunbar is perhaps best known for poems such as Sympathy a poem that ends I know why the caged bird sings and We Wear the Mask he wrote prolifically in many genres including a newspaper he produced with his friends Orville and Wilbur Wright in their hometown of Dayton Ohio Before his early death he published fourteen books of poetry four collections of short stories and four novels and also collaborated on theatrical productions including the first musical with a full African American cast to appear on Broadway In this book Gene Jarrett traces Dunbar's personal and professional life in the context of the historical currents that shaped the author's development to tell in Jarrett's words the full story of an African American who privately wrestled with the constraints of America in the Gilded Age but who also sought to express or mitigate this strife through the written and spoken word Jarrett sketches the life and times of Paul Laurence Dunbar in three main parts Against the backdrop of the Civil War Reconstruction and the rise of Jim Crow segregation the first section Broken Home begins with the lives of Joshua and Matilda Paul's parents who were born enslaved and ends with the years leading up to 1893 when Dunbar published his first book Oak and Ivy and befriended Frederick Douglass The second section A True Singer bookends the era when Paul entered his literary prime and became one of the first professional African American writers The final section The Downward Way details his troubled marriage to Alice Dunbar Nelson his illnesses including tuberculosis and alcoholism and his death An epilogue comments on Dunbar's enduring legacy The book includes more than 40 black and

white photographs of Dunbar's family, friends, colleagues and published works The Queen's Bush Settlement Linda Brown-Kubisch, 2004-02-20 The Black pioneers 1839-1865 who cleared the land and established the Queen's Bush settlement in that section of unsurveyed land where present day Waterloo and Wellington counties meet near Hawkesville are the focus of this extensively researched book. Linda Brown Kubisch's attention to detail and commitment to these long neglected settlers re-establishes their place in Ontario history. Set in the context of the early migration of Blacks into Upper Canada, this work is a must for historians and for genealogists involved in tracing family connections with these pioneer inhabitants of the Queen's Bush. In the 19th century, one of the most important areas of settlement for fugitive American slaves was the Queen's Bush, then an isolated region in the backwoods of Ontario. Despite much recent attention to African Canadian history, the Queen's Bush remains a remote territory for historical scholarship. Linda Brown Kubisch offers a pioneering entry into that gap. With a jeweller's eye for the biological subject, Brown Kubisch introduces the courageous Black adventurers and the hardships they faced in Canada. James Walker, Professor of History, University of Waterloo and author of *The Black Loyalists* (1976, 1992) and *Race Rights and the Law* (1997) **Investigating Identities** Marieke Krajenbrink, Kate M. Quinn, 2009 *Investigating Identities: Questions of Identity in Contemporary International Crime Fiction* is one of the relatively few books to date which adopts a comparative approach to the study of the genre. This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national, regional or local contexts and also uncover similarities between the works of authors from very different areas. Contributors explore discourse concerning national and historical memory, language, race, ethnicity, culture and gender and examine how identity is affirmed and challenged in the crime genre today. They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with philosophical enquiry into the epistemological dimensions of investigation. Throughout the notion of stable identities is subject to scrutiny. While each essay in itself is a valuable addition to existing criticism on the genre, all the chapters mutually inform and complement each other in fascinating and often unexpected ways. This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity. It will therefore be of special interest to students and scholars of the crime genre, identity studies and comparative literature. It will also appeal to all who enjoy reading contemporary crime fiction Noir Fiction and Film Lee Clark Mitchell, 2021-11-25 The argument of *Noir Fiction and Film* is curiously counterintuitive: that in a century of hard-boiled fiction and detective films, characteristics that at first seemed trivial swelled in importance, flourishing into crucial aspects of the genre. Among these are aimless descriptions of people and places irrelevant to plot, along with detectives consisting of little more than sparkling dialogue and flippant attitudes. What weaves together such features, however, seems to be a paradox: that a genre rooted in solving a mystery, structured around the gathering of clues, must do so by misdirecting our attention.

even withholding information we think we need to generate the suspense we also desire Yet successful noir stories and films enhance that suspense through passing diversions descriptive details and eccentric perspectives rather than depending on the center pieces of plot alone suspected motives or incriminating traces As the greatest practitioners of the genre have realized the how of detective fiction its stylistic detours draws us in more insistently than the what or the who its linear advance And the achievement of recent film noir is to make that how become the tantalizing object of our entire attention shorn of any pretense of reading for the plot immersing us in the diversionary delight that has animated the genre from the beginning
