Marshall's organization is a relatively young organization. The members are expected to be 18 or older and have attained at least an intermediate-high-school or college degree. However, members need not be students or college graduates. The club was the first in the United States that gave boys aged as low as 14 the opportunity to learn the principles of the program, and then engaged in meaningful service projects. As the organization's membership, programs, and the financial resources supporting the program grew, the program's membership was limited only to those in the United States and Canada. The club is a national organization that serves students, but whose main focus is the United States. The growth of the program is continuing unabated and should continue to grow.

Household expenditures across the border generally met the needs of all. But persistent shortages of essential goods and services were reported in the general budget study of 1990, which at that time indicated that about 20 percent of the population was unable to afford basic necessities. The government has since taken steps to improve the situation, but shortages of essential goods and services remain a problem in some areas.

Multi-Sector Engagement Initiatives is currently only implemented in countries where there is a significant number of stakeholders. It is used for projects that need the efforts of companies, university students, the general public, etc. Encouraging and motivating to the general public, encouraging them to participate in the work of projects, etc. It is suggested to develop and use the existing study tools (questionnaires, studies, etc.) and use them to collect the data of the different stakeholders and values about projects, such as the number of people, the organization type, the different initiatives, etc.
