distinguished instructors and pilots these principles are indispensable given today's multifaceted instrument settings. Learning and practicing them will help yield more positive, productive and purposeful flight experiences for you, your passengers and your fellow aviators. From the Foreword by Glenn P. McConnell ATP I recommend Tim's fine work to all pilots across the spectrum from VFR only and instrument rated pilots to perhaps more importantly Instrument Flight Instructors and FAA Designated Pilot Examiners. Read it as I did more than once. Tim's book is indeed a powerful contribution to the library of instrument pilots, aviation educators and air safety professionals.

Scenario-Based Training with X-Plane and Microsoft Flight Simulator Bruce Williams, 2011-12-28 Fly toward pilot certification with these real world scenario exercises. Although PC based flight simulations have been available for 30 years many pilots, instructors and flight schools don't understand how best to use these tools in real world flight training and pilot proficiency programs. This invaluable reference bridges the gap between simulation tools and real world situations by presenting hands on scenario based exercises and training tips for the private pilot certificate and instrument rating. As the first of its kind based on FAA Industry Training Standards FITS this book steers its focus on a scenario based curriculum that emphasizes real world situations. Experienced pilot and author Bruce Williams ultimately aims to engage the pilot, reinforce the realistic selling point of PC based flight simulations while also complementing the FAA approved FITS syllabi. Serves as essential reading for pilots who want to make effective use of simulation in their training while expanding their skill level and enjoyment of flying. Covers private pilot real world scenarios and instrument rating scenarios. Includes a guide to recommended websites and other resources. Features helpful charts as well as a glossary. You'll take off towards pilot certification with this invaluable book by your side.
