

OPTOMETRY SCHOOL PERSONAL STATEMENT SAMPLE

It isn't until we start to lose our vision that we truly appreciate the things that we have seen. This was something that my great grandmother told me when she was diagnosed with cataracts, and was undergoing treatment to help her regain her vision. Through her experience, I began to conduct my own research into the field of Optometry. My interest in the field was further fueled by my love for the natural sciences, which have helped me to better understand many of the concepts in Optometry. I hope to be able to gain acceptance to Optometry School in order to help promote healthy eye habits in my future patients.

During my last two years of college, I interned at an Optometrist's office to gain more of an understanding of the responsibilities of a professional in the field. Throughout my time there, I gained much familiarity with the presenting symptoms of different eye-related pathologies, including macular degeneration and glaucoma. I also learned how to perform vision tests, and utilize the results to assess not only a patient's prescription strength, but also their risk for future vision complications. Through this experience, I was able to further my understanding and passion for the field of optometry. Attending Optometry School will enable me to obtain the additional training that I will need to become a licensed optometrist. Not only will I be able to learn advanced techniques in assessing vision and eye health, I will also be exposed to advanced concepts in the biology and physiology of the eye. Additionally, I will also be able to learn how to coordinate with other healthcare professionals to provide vision care that the patient needs for optimal health. I believe that Optometry school will allow me to receive the knowledge and skills that I will need to help my future patients see better and maintain better vision health.
