Matthew Hollinder, Headphones can be considered loudspeakers that were specifically created to be placed over the ears of users They are electrical devices that convert electrical signals into sounds to be heard by the user The main function of a headphone is to provide users with the ability to use them to privately listen to audio recordings This is in direct contrast to a speaker that allows everyone in close proximity to hear the sound Sometimes headphones can be referred to as ear speakers There are many different types of headphones that have different audio reproduction abilities They range from lightweight ear buds to heavy bass pumping full sized headphones that produce amazing output These can offer a range of sound that to date has remained a phenomenon It allows audiophiles to hear every sound note and accurately identify every pitch The

average user will unlikely be able to differentiate the various sounds and pitches An experienced listener however is more likely to easily identify the difference

**The Insanely Easy Guide to Galaxy Tab S** Scott La Counte, When most people think about a tablet the first thing that comes to mind is the iPad The iPad may have changed the way people think about tablets but it s not the only tablet in town There are countless Android tablets but one that arguably beats them all the Samsung Galaxy Tab S The Tab S is a powerhouse that can outperform many laptop computers And running Samsung DeX the tablet can even turn into a desktop like experience If you are new to the Tab S there s a lot to uncover and this guide will walk through all the basics of the operating system that you need to know It s based on the latest version of the Tab S the Tab S 8 but aside from hardware features the Tab S 7 and 6 are almost identical so you ll be fine if you have a cheaper tablet Almost everything in this guide also applies to the A series the budget line of tablets It s going to cover only what most people want to know so if you are looking for something highly technical that teaches you how to set up private virtual networks then keep looking But if you want something that teaches you all kinds of cool tricks and helps you get started then this book is for you You ll learn about Setting up your tablet Using Samsung DeX to turn your tablet into a desktop like experience Installing apps and widgets Connecting to Wi Fi Changing themes and wallpaper Using Gestures Using the camera Surfing the Internet Changing system settings Using Samsung Kids mode And much more Ready to get started Let s Go Note This book is not endorsed by Samsung Inc and should be considered unofficial
