Gipps, 2003-09-02 Concerned with pedagogy and the learning achievement of both girls and boys this book examines international trends in subject performance throughout schooling and looks critically at a range of interventions in difference contexts and countries all aimed at enhancing equity in schools and higher education institutions The book argues that pedagogy can not be isolated from the overarching gender education system What can be done it claims is that teachers can be provided with a range of pedagogic strategies which can be used to make education as it is experienced by students and reflected in their achievements more just *Goats and tsars* Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2010-03-11 This report from the Public Administration Select Committee PASC concludes that the practice of appointing ministers from outside Parliament via the

House of Lords should be exceptional and subject to more checks and balances Introducing a wider range of experience into ministerial teams can sometimes make government more effective but government could also achieve this by making greater use of the range of talent on their own backbenches The Committee argues for more scrutiny of outside appointments when they are made The Prime Minister would be required to explain to the House of Commons why an appointment had been made under what terms and what was expected of the minister during their time in government The prospective appointee could be required to attend a pre appointment select committee hearing PASC identifies a strong argument of principle that ministers in an unelected House of Lords should be accountable to all Members of the House of Commons People who have been appointed to the Lords to be ministers should not automatically receive a title and place in the legislature for life It may be preferable to have a limited number of ministers who are members of neither House but accountable to both The Committee also examined the role of so called tsars There should be much more transparency about such appointments with greater clarity about their roles and responsibilities and a public statement of what they have achieved in their posts     **The Literary Digest** ,1918
