Within a means of collecting and investigating information and within the way the society perceives the information, all of these factors affect how criminal defense practitioners prepare their cases from consulting with their clients to reviewing the investigation by law enforcement, anticipating what information may need to be suppressed, minimized or emphasized, selecting the jury, attempting to manage how the media reports the information, the direct and cross examination of witnesses, admission of evidence and potentially appeal and post conviction. Special features of this new edition include chapters on Interviewing Immigrant Clients and Special Immigrant Relief for Crime Victims, Immigration Consequences of Criminal Convictions, Digital Defense Meeting the Challenges that the Computer Fraud and Abuse Act Poses, A General Discussion of Some Cultural Issues from *State of Florida v George Zimmerman*. This book is a helpful tool for any practitioner whether they have a criminal defendant in a case abroad, a case involving an immigrant defendant in the U.S. or a criminal case within the U.S. with a unique cultural issue.

A History of Modern Translation Knowledge Lieven D'hulst, Yves Gambier, 2018-06-28 A History of Modern Translation Knowledge is the first attempt to map the coming into being of modern thinking about translation. It breaks with the well established tradition of viewing history through the reductive lens of schools, theories, turns or interdisciplinary exchanges. It also challenges the artificial distinction between past and present and it sustains that the latter's historical roots go back far beyond the 1970s. Translation Studies is but part of a broader set of discourses on translation; we propose to label translation knowledge. This book concentrates on seven processes that make up the history of modern translation knowledge: generating, mapping, internationalising, historicising, analysing, disseminating and applying knowledge. All processes are covered by 58 domain experts and allocated over 55 chapters with cross references. This book is indispensable reading for advanced Master and PhD students in Translation Studies who need background information on the history of their field with relevance for Europe, the Americas and large parts of Asia. It will also interest students and scholars working in cultural and social history.
