Work and Quality of Life Nora P. Reilly, M. Joseph Sirgy, C. Allen Gorman, 2012-05-31 Employees have personal responsibilities as well as responsibilities to their employers They also have rights In order to maintain their well being employees need opportunities to resolve conflicting obligations Employees are often torn between the ethical obligations to fulfill both their work and non work roles to respect and be respected by their employers and coworkers to be responsible to the organization while the organization is reciprocally responsible to them to be afforded some degree of autonomy at work while attending to collaborative goals to work within a climate of mutual employee management trust and to voice opinions about work policies processes and conditions without fear of retribution Humanistic organizations can recognize conflicts created by the work environment and provide opportunities to resolve or minimize them This handbook empirically documents the dilemmas that result from responsibility based conflicts The book is organized by sources of dilemmas that fall into three major categories individual organizational internal policies and procedures and cultural social forces external to the organization including an introduction and a final integration of the many ways in which organizations can contribute to positive employee health and well being This book is aimed at both academicians and practitioners who are interested in how interventions that stem from industrial and organizational psychology may address ethical dilemmas commonly faced by employees

Thinking Strategically in Turbulent Times: An Inside View of Strategy Making Alan M. Glassman, Deonne Zell, Shari Duron, 2014-12-18 An emergent approach to organizational strategy making assumptions that few organizations actually realize the goal of deliberative top down strategic planning and that effective strategy making occurs on a continual basis and is a shared activity of the entire organization This innovative book provides the first in depth

look at how real organizations are formulating and implementing strategic change under this new paradigm The authors have dug deep into three large and varied organizations Hewlett Packard the California State University system and the County of Los Angeles and identified each one s efforts to develop a new strategic planning process better suited to match the current pace of change and environmental unpredictability The book is filled with vignettes quotes and real world examples that illustrate the trend toward faster more adaptive strategic planning processes It is relevant for a wide range of business governmental and non profit settings and should be required reading in any course on strategic planning
