strategy In nearly every business segment and corner of the world economy the most successful companies dramatically outperform their rivals What is their secret In *Better Simpler Strategy* Harvard Business School professor Felix Oberholzer Gee shows how these companies achieve more by doing less At a time when rapid technological change and global competition conspire to upend traditional ways of doing business these companies pursue radically simplified strategies At a time when many managers struggle not to drown in vast seas of projects and initiatives these businesses follow simple rules that help them select the few ideas that truly make a difference *Better Simpler Strategy* provides readers with a simple tool the value stick which every organization can use to make its strategy more effective and easier to execute Based on proven financial mechanics the value stick helps executives decide where to focus their attention and how to deepen the competitive advantage of their business How does the value stick work It provides a way of measuring the two fundamental forces that lead to value creation and increased financial success the customer's willingness to pay and the employee's willingness to sell their services to the business Companies that win Oberholzer Gee shows create value for customers by raising their willingness to pay and they provide value for talent by lowering their willingness to sell The approach proven in practice is entirely data driven and uniquely suited to be cascaded throughout the organization With many useful visuals and examples across industries and geographies *Better Simpler Strategy* explains how these two key measures enable firms to gauge and improve their strategies and operations Based on the author's sought after strategy course this book is your must have guide for making better strategic decisions
