Cleveland, Metropolitan Area, Alphabetical Telephone Directory Ohio Bell Telephone Company, 2002 *International Competitiveness in Electronics*, 1983 **International Competitiveness in Electronics** Congress of the U.S., Washington, DC. Office of Technology Assessment, 1983 This assessment continues the Office of Technology Assessment's OTA exploration of the meaning of industrial policy in the United States context while also examining the industrial policies of several U.S. economic rivals. The major focus is on electronics, an area which virtually defines high technology of the 1980s. The assessment sets the characteristics of the technology itself alongside other forces that exert major influences over international competitiveness. Specific areas addressed include electronics technology, structure, trade, and competitiveness in the international electronics industry; quality, reliability, and automation in manufacturing; role of financing in competitiveness; and electronics human resources, education, training, management, employment, effects, national industrial policies, and U.S. trade policies and their effects. The report concludes by outlining five options for a U.S. industrial policy, drawing on electronics for examples of past and prospective impacts, as well as on OTA's previous studies of the steel and automotive industries. A detailed summary and introductory comments are included. Also included in appendices are case studies in the development and marketing of electronics products; a discussion of offshore manufacturing; and a glossary of terms used in the assessment. JN *Best Buys for Your Home* Consumer Reports, 2001 Based on the latest results from the Consumer Reports labs, this 2001 edition features brand name ratings for more than 500 products, from washers and dryers to lawnmowers, wallpaper, ranges, and air conditioners. Build Your Own Home Theater Robert Wolenik, John Adams, 2001-10-25 Written to provide information on all price ranges of equipment to everyone from the beginner to the experienced home theater owner, *Build Your Own Home Theater* has been completely updated for today's audience. This new edition contains valuable consumer information on the latest digital home theater components and technology, including digital surround sound receivers, DVD players, digital television, HDTV, digital satellites, DBS, digital camcorders, and digital hard drive video recorders. It also features easy-to-understand explanations of surround sound technology and set-ups, including Dolby Digital, THX Surround EX, and DTS. If you are interested in audio, video, and home theater technologies, this book will give you the information you need to choose the right components, hook the pieces together, and create a fabulous theater experience right in your own living room. When the first edition of *Build Your Own Home Theater* was published, decent home theater systems were primarily only affordable for wealthier consumers. Now, several years later, the technology is accessible to millions of homes, as products such as wide screen televisions, digital surround sound, audio, DVD, Video, and Audio Players, and digital satellite systems have become commonplace. Though most people don't have actual home theater set-ups in their living rooms, more and more consumers are trying to combine components they already own with new high-tech components to create an affordable home theater experience.
