

Passenger Seat Conversion

1. Make sure the cargo box dump lever is securely latched.
2. Rotate both operator backrest latches 1/4 turn to release the locks.

3. Tilt the backrest slightly forward towards the front of the vehicle and pull the passenger backrest upward from the bed of the cargo box.

4. Lift the adjustment latch at the top of the passenger backrest. Raise the backrest to the desired position. Release the latch, making sure it locks into one of the three adjustment positions.

NOTE: The backrest must be moved out of the lowest position before it can be secured in the upright position. The lowest position is for seat storage only. Do not leave the backrest in the lowest position. Always adjust the backrest to one of the three adjustment positions.

5. Lower the operator backrest to create the passenger seat. Two retaining pins under the seat should fit into the two grommets on the seat base.

6. Test the passenger seat lock-out by attempting to release the cargo box dump lever. If the dump lever releases, the seat is not secure. Repeat the set-up procedure. **If the lock-out is not working properly, it must be repaired before allowing any passenger to ride on the vehicle.**
7. To return the vehicle to single-rider set-up, reverse all previous steps. Always lower the passenger backrest to the lowest position before folding it down into the cargo box. Turn the operator backrest latches 1/4 turn to secure the locks.
