American Red Cross Lifeguarding American Red Cross,2012 *The Science of Beach Lifeguarding* Mike Tipton,Adam Wooler,2018-09-03 The

World Health Organization's recently published Global Report on Drowning found that drowning is the third leading cause of unintentional injury death worldwide making the information presented in this new book an important part of the global effort to reduce this health risk. Written by leading researchers and academics from around the world, *The Science of Beach Lifeguarding* focuses on the scientific evidence that underpins what is taught to and practised by beach lifeguards. It is the first book to pull together all the different areas involved in beach lifeguarding and evaluate their evidence base. An accessible and informative reference underpinned by the best current research, the book's key themes cover the context of beach lifeguarding, the physical environment in which lifeguards work, medical aspects, practical lifeguarding techniques, physiological standards for lifeguards, safety education and future developments in beach lifeguarding. The book presents groundbreaking work quantifying the scientific rationale behind a universally accepted fitness standard. It supplies an in-depth examination of the risks and hazards associated with the beach environment, including rip currents and cold water immersion. The book includes a state-of-the-art review of drowning and a comprehensive chapter on first aid. Detailing the recently announced 2015 European Resuscitation Council Guidelines, this book is a must-have for beach lifeguards, beach lifeguard managers, search and rescue personnel, paramedics, sports scientists, health and safety practitioners and occupational health practitioners.

American Red Cross Lifeguarding Manual American Red Cross, 2012-01-05. As the number of community pools and waterparks grows nationwide, participation in aquatic activities is also growing. Lifeguards must receive proper and effective training and maintain their skills to ensure their ability to work effectively with others as a part of a lifeguard team. This manual will supplement your in-service training to keep your knowledge and skills sharp.

Tipping the Scales of Justice Sondra Solovay, 2012-03-28. What rights if any do fat people have? If a child is obese, are the parents legally responsible? Can employers treat overweight employees as different or disabled? Should fat people be protected by disability laws? Cases of illegal hiring practices, workplace prejudice, harassment, unfair treatment, medical malpractice and denial of public access are being filed in increasing numbers as the nation continues to obsess over and misunderstand weight. Two events in 1998, the controversial felony prosecution of a mother whose child died of obesity-related complications and the National Institutes of Health declaration of a national weight standard, forced the weight debate to a new level of public awareness. Very little literature on the law and weight exists so

each new case is a potential precedent setter Tipping the Scales of Justice presents actual cases and the stories behind the legal arguments showing for the first time the varied and surprising ways that fat has become a courtroom topic An attorney who focuses on weight related cases Sondra Solovay details court attitudes toward weight in relation to employment and discrimination law child family law disability law civil rights minorities public policy diets and exercise and much more while intermingling a personal narrative on major cases and their outcomes This fascinating book will be essential for law courses and libraries as well as a one of a kind perspective for anyone concerned about weight as a legal issue **ACSM's**
