

Roland

DISCOVER 5M

REALTIME ORCHESTRATOR

Owner's Manual

Thank you for choosing a Roland DisCover 5M Realtime-Orchestrator module, the perfect Standard MIDI File player for performing musicians with a professional Vocal Harmonist function. The DisCover 5M allows you to play back Standard MIDI files on SmartMedia™ card or floppy disk, and to change their orchestration in realtime, while you also have the flexibility to jump to four locations within every song, which allows you, for instance, to repeat any part of a song time and again.

The DisCover 5M's Vocal Harmonist is equally flexible: it can add harmonies to your singing based on the chords used by the songs you are playing back. You can also use it for gender transformations of your voice, for correcting not-so-perfect singing, and for a number of professional effects.

To get the most out of the DisCover 5M and to ensure many years of trouble-free service, we urge you to read through this Owner's Manual thoroughly.

To avoid confusion, let's agree to use the word "button" for all keys on the front panel.

To save space (and time), let us agree to use the word "song" when referring to Standard MIDI Files.

Before using this module, carefully read the sections entitled "Important safety instructions" and "Important notes". They provide important information concerning the proper operation of the DisCover 5M. Be sure to keep this manual in a safe place for future reference.
