Commentary on the Book of Job Edouard Dhorme,1984 **Reading English Verse in Manuscript c.1350-c.1500** Daniel
Sawyer,2020-05-21 Reading English Verse in Manuscript c 1350 c 1500 is the first book length history of reading for later
Middle English poetry While much past work in the history of reading has revolved around marginalia this book consults a
wider range of evidence from the weights of books in medieval bindings to relationships between rhyme and syntax It
combines literary critical close readings detailed case studies of particular surviving codices and systematic manuscript
surveys drawing on continental European traditions of quantitative codicology to demonstrate the variety vitality and formal
concerns visible in the reading of verse in this period The small and large scale formal features of poetry affected reading
subtly but extensively determining how readers might move through books and even shaping physical books themselves
Readers responses to one formal feature rhyme meanwhile evince a habitual but therefore deep rooted formalism which can
support and enhance close readings today Reading English Verse in Manuscript sheds fresh light on poets such as Geoffrey
Chaucer John Lydgate and Thomas Hoccleve but also shows how their works were read in manuscript in the context of a
much larger mass of anonymous poems that influenced canonical poems in a pattern of mutual influence **The Nation**
