L'Allier, 2014-04-10 This book provides essential coaching tools to support teachers in planning and implementing instruction aligned with the Common Core State Standards CCSS. The authors explain the key instructional shifts brought about by the CCSS in K-5 English language arts classrooms. Eighteen specific strategies for coaching large groups, small groups, and individual teachers are presented, including clear-cut procedures, vivid illustrative examples, and 28 reproducible forms. A Teacher's Guide to Using the Common Core State Standards With Gifted and Advanced Learners in the English/Language Arts National Assoc. For Gifted Children, Todd Kettler, Elizabeth Shaunessy-Dedrick, 2021-09-23 A Teacher's Guide to Using the Common Core State Standards With Gifted and Advanced Learners in the English Language Arts provides teachers and administrators a blueprint for differentiating the Common Core State Standards for English Language Arts for gifted and advanced students through the use of acceleration, depth, complexity, and creativity within and across grade levels. It illustrates the differences between learning experiences for typical and advanced students based on the same standard and provides an array of examples across five of the information text and literary text standards while integrating the other aspects of language arts teaching and learning. The book highlights implementation features such as classroom management and assessment of student work that allow teachers to make data-based decisions about instruction for particular students. It also offers guidance to teachers on reading selections for advanced learners at all grade levels.

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards, then this book is the only one that offers explicit advice on collection development in curriculum collections for you. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS. The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book

begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
