Paul Celan And Martin Heidegger An Unresolved Conversation 19:

Paul Celan and Martin Heidegger James K. Lyon, 2006-02-22 This work explores the troubled relationship and unfinished intellectual dialogue between Paul Celan regarded by many as the most important European poet after 1945 and Martin Heidegger perhaps the most influential figure in twentieth century philosophy It centers on the persistent ambivalence Celan a Holocaust survivor felt toward a thinker who respected him and at times promoted his poetry Celan although strongly affected by Heidegger's writings struggled to reconcile his admiration of Heidegger's ideas on literature with his revulsion at the thinker's Nazi past That Celan and Heidegger communicated with each other over a number of years and in a controversial encounter met in 1967 is well known The full duration extent and nature of their exchanges and their impact on Celan's poetics has been less understood however In the first systematic analysis of their relationship between 1951 and 1970 James K Lyon describes how the poet and the philosopher read and responded to each other's work throughout the period He offers new information about their interactions before during and after their famous 1967 meeting at Todtnauberg He suggests that Celan who changed his account of that meeting may have contributed to misreadings of his poem Todtnauberg Finally Lyon discusses their two last meetings after 1967 before the poet's death three years later Drawing heavily on documentary material including Celan's reading notes on more than two dozen works by Heidegger the philosopher's written response to the poet's Meridian speech and references to Heidegger in Celan's letters Lyon presents a focused perspective on this critical aspect of the poet's intellectual development and provides important insights into his relationship with Heidegger transforming previous conceptions of it *Paul Celan and Martin Heidegger* James K. Lyon, 2006-02-22 Publisher description *Heidegger in the Literary World* Florian Grosser, Nassima Sahraoui, 2021-11-17 Within the vast reception history of Martin Heidegger's philosophical thought poets novelists and playwrights have occupied a central place This collection of essays opens up new perspectives by tracing the manifold often surprising ways in which Heideggerian concepts motifs and concerns have been taken up in literary and poetic writing since the middle of the 20th century In their contributions scholars from the Americas Asia and Europe explore intellectual constellations between Heidegger and selected literary figures such as John Ashbery Julia de Burgos Paul Celan Elfriede Jelinek and Velimir Khlebnikov The volume unveils the immense creativity that crystallizes in these poetic and literary traces and disseminations of Heidegger's thinking Hence it points to new and fruitful ways to critically intervene in current philosophical and literary debates Thinking the Poetic Measure of Justice Charles Bambach, 2013-05-21 What is the measure of ethics What is the measure of justice And how do we come to measure the immeasurability of these questions Thinking the Poetic Measure of Justice situates the problem of justice in the interdisciplinary space between philosophy and poetry in an effort to explore the sources of ethical life in a new way Charles Bambach engages the works of two philosophical poets who stand as the bookends of modernity Friedrich Hölderlin 1770 1843 and Paul Celan 1920 1970 offering close textual readings of poems

from each that define and express some of the crucial problems of German philosophical thought in the twentieth century tensions between the native and the foreign the proper and the strange the self and the other At the center of this philosophical conversation between Hlderlin and Celan Bambach places the work of Martin Heidegger to rethink the question of justice in a nonlegal nonmoral register by understanding it in terms of poetic measure Focusing on Hlderlin s and Heidegger s readings of pre Socratic philosophy and Greek tragedy as well as on Celan s reading of Kabbalah he frames the problem of poetic justice against the trauma of German destruction in the twentieth century Sites of the Uncanny Eric Kligerman,2012-02-13 Sites of the Uncanny Paul Celan Specularity and the Visual Arts is the first book length study that examines Celan s impact on visual culture Exploring poetry s relation to film painting and architecture this study tracks the transformation of Celan in postwar German culture and shows the extent to which his poetics accompany the country s memory politics after the Holocaust The book posits a new theoretical model of the Holocaustal uncanny evolving out of a crossing between Celan Freud Heidegger and Levinas that provides a map for entering other modes of Holocaust representations After probing Celan s critique of the uncanny in Heidegger this study shifts to the translation of Celan s uncanny poetics in Resnais film Night and Fog Kiefer s art and Libeskind s architecture Encounters with Paul Celan's Poetry Pajari Räsänen,2021-09-21 Encounters with Paul Celan s Poetry The Other s Time consists of encounters with poetry with its readers and with the other that poetry seeks to encounter What does it mean when Celan insists that every real encounter every true encounter happens in memory of the poetic encounter the secret of the encounter This book presents close readings of various poems often attempting textual and intellectual dialogue with philosophers who read Celan or who were read by Celan such as Jacques Derrida Werner Hamacher Edmund Husserl Hans Georg Gadamer and Maurice Merleau Ponty **Speaking the Unspeakable in Postwar Germany** Sonja Boos,2015-03-10 Speaking the Unspeakable in Postwar Germany is an interdisciplinary study of a diverse set of public speeches given by major literary and cultural figures in the 1950s and 1960s Through close readings of canonical speeches by Hannah Arendt Theodor W Adorno Ingeborg Bachmann Martin Buber Paul Celan Uwe Johnson Peter Szondi and Peter Weiss Sonja Boos demonstrates that these speakers both facilitated and subverted the construction of a public discourse about the Holocaust in postwar West Germany The author s analysis of original audio recordings of the speech events several of which will be available on a companion website improves our understanding of the spoken performative dimension of public speeches While emphasizing the social constructedness of discourse experience and identity Boos does not neglect the pragmatic conditions of aesthetic and intellectual production most notably the felt need to respond to the breach in tradition caused by the Holocaust The book thereby illuminates the process by which a set of writers and intellectuals instead of trying to mend what they perceived as a radical break in historical continuity or corroborating the myth of a new beginning searched for ways to make this historical rupture rhetorically and semantically discernible and literally audible **Thresholds, Encounters** Kristina Mendicino,Dominik

Zechner,2023-09-01 Paul Celan's works dwell on the threshold between the extremes of poetic expression and philosophical reflection The divergent literary and critical idioms that have marked Celan's writing and that Celan's writing has come to mark for others Hamacher Derrida Szondi thus call for a new philology This philology cannot be situated within presupposed genres or fields but rather explores the ways in which poetic and philosophical ambitions meet in texts by and on Celan The first part of *Thresholds Encounters* Ex posing the Poem speaks to issues of history ecology and aurality the second part *Language Dislodged* delves into Celan's articulations of encounter positionality and translation Throughout contributors probe the consequences of Celan's poetry for thinking and writing while inviting readers from different disciplinary spaces to further pace out the liminal zones opened by his oeuvre Mobile Modernity Todd S Presner,2007-04-19 Though the history of the German railway system is often associated with the transportation of Jews to labor and death camps Todd Presner looks instead to the completion of the first German railway lines and their role in remapping the cultural geography and intellectual history of Germany's Jews Treating the German railway as both an iconic symbol of modernity and a crucial social technological and political force Presner advances a groundbreaking interpretation of the ways in which mobility is inextricably linked to German and Jewish visions of modernity Moving beyond the tired model of a failed German Jewish dialogue Presner emphasizes the mutual entanglement of the very categories of German and Jewish and the many sites of contact and exchange that occurred between German and Jewish thinkers Turning to philosophy literature and the history of technology and drawing on transnational cultural and diaspora studies Presner charts the influence of increased mobility on interactions between Germans and Jews He considers such major figures as Kafka Heidegger Arendt Freud Sebald Hegel and Heine reading poetry next to philosophy architecture next to literature and railway maps next to cultural history Rather than a conventional linear history that culminates in the tragedy of the Holocaust Presner produces a cultural mapping that articulates a much more complex story of the hopes and catastrophes of mobile modernity By focusing on the spaces of encounter emblematically represented by the overdetermined triangulation of Germans Jews and trains he introduces a new genealogy for the study of European and German Jewish modernity **Sounding/Silence** David Nowell Smith,2013-09-02 Goku's life is hanging by a thread Gohan and Kuririn must use the seven Dragon Balls of Namek to summon the mighty Dragon Lord *Philosophy and Poetry* Ranjan Ghosh,2019-06-04 Ever since Plato's Socrates exiled the poets from the ideal city in *The Republic* Western thought has insisted on a strict demarcation between philosophy and poetry Yet might their long standing quarrel hide deeper affinities This book explores the distinctive ways in which twentieth century and contemporary continental thinkers have engaged with poetry and its contribution to philosophical meaning making challenging us to rethink how philosophy has been changed through its encounters with poetry In wide ranging reflections on thinkers such as Heidegger Gadamer Arendt Lacan Merleau Ponty Deleuze Irigaray Badiou Kristeva and Agamben among others distinguished contributors consider how different philosophers encountered the force and intensity of poetry and the

negotiations that took place as they sought resolutions of the quarrel. Instead of a clash between competing worldviews they figured the relationship between philosophy and poetry as one of productive mutuality leading toward new modes of thinking and understanding. Spanning a range of issues with nuance and rigor, this compelling and comprehensive book opens new possibilities for philosophical poetry and the poetics of philosophy.

The Oxford Handbook of Modern German History Helmut Walser Smith, 2011-09-29 This is the first comprehensive multi-author survey of German history that features cutting-edge syntheses of major topics by an international team of leading scholars. Emphasizing demographic, economic, and political history, this Handbook places German history in a denser transnational context than any other general history of Germany. It underscores the centrality of war to the unfolding of German history and shows how it dramatically affected the development of German nationalism and the structure of German politics. It also reaches out to scholars and students beyond the field of history with detailed and cutting-edge chapters on religious history and on literary history, as well as to contemporary observers with reflections on Germany and the European Union and on multi-cultural Germany. Covering the period from around 1760 to the present, this Handbook represents a remarkable achievement of synthesis based on current scholarship. It constitutes the starting point for anyone trying to understand the complexities of German history as well as the state of scholarly reflection on Germany's dramatic, often destructive, integration into the community of modern nations. As it brings this story to the present, it also places the current post-unification Federal Republic of Germany into a multifaceted historical context. It will be an indispensable resource for scholars, students, and anyone interested in modern Germany.

Judaism, Philosophy, and Psychoanalysis in Heidegger's Ontology Federico Dal Bo, 2023-11-17 In this book, Federico Dal Bo analyzes the question of Heidegger's anti-Semitism from a deconstructive point of view, appealing not only to philosophy but also to psychoanalysis, gender studies, and critical studies. Deconstruction famously discourages simplistic oppositions while encouraging a more careful analysis of cultural and philosophical complexities of a semantic field. In the present case, a deconstructive analysis of Heidegger's anti-Semitism rejects both a stern condemnation of his oeuvre and a simplistic acquittal from this infamous accusation. It rather suggests that the question of his anti-Semitism shall be examined from the broader perspective from the end of metaphysics.

Heidegger Peter Trawny, 2019-01-15 Martin Heidegger is one of the most influential figures of twentieth-century philosophy, but his reputation was tainted by his associations with Nazism. The posthumous publication of the Black Notebooks, which reveal the shocking extent of Heidegger's anti-Semitism, has only cast further doubt on his work. Now more than ever, a new introduction to Heidegger is needed to reassess his work and legacy. This book by the world-leading Heidegger scholar Peter Trawny is the first introduction to take into account the new material made available by the explosive publication of the Black Notebooks. Seeking neither to condemn nor excuse Heidegger's views, Trawny directly confronts and elucidates the most problematic aspects of his thought. At the same time, he provides a comprehensive survey of Heidegger's development from his early writings on phenomenology and his magnum opus *Being*

and Time to his later writings on poetry and technology Trawny captures the extraordinary significance and breadth of fifty years of philosophical production all against the backdrop of the tumultuous events of the twentieth century This concise introduction will be required reading for the many students and scholars in philosophy and critical theory who study Heidegger and it will be of great interest to general readers who want to know more about one of the major figures of contemporary philosophy *Derrida after the End of Writing* Clayton Crockett, 2017-11-07 What are we to make of Jacques Derrida's famous claim that every other is every other if the other could also be an object a stone or an elementary particle Derrida's philosophy is relevant not just for human ethical language and animality but to profound developments in the physical and natural sciences as well as ecology Derrida After the End of Writing argues for the importance of reading Derrida's later work from a new materialist perspective In conversation with Heidegger Lacan and Deleuze and critically engaging newer philosophies of speculative realism and object oriented ontology Crockett claims that Derrida was never a linguistic idealist Furthermore something changes in his later philosophy something that cannot be simply described as a turn In Catherine Malabou's terms there is a shift from a motor scheme of writing to a motor scheme of plasticity Crockett explores some of the implications of interpreting Derrida through the new materialist lens of technicity or plasticity attending to the significance of ethics religion and politics in his later work By reading Derrida from a new materialist perspective Crockett provides fresh readings of his ideas of sovereignty religion responsibility and mourning These new readings produce fruitful engagements with the thinkers who have followed Derrida including Malabou Timothy Morton John D Caputo and Karen Barad Here is a new reading of Derrida that moves beyond conventional understandings of poststructuralism and deconstruction a reading that is responsive to and critical of some of the crucial developments shaping the humanities today

Derek Mahon: A Retrospective Nicholas Grene, Tom Walker, 2024-09-17 Derek Mahon 1941-2020 is widely recognized as one of the most important Irish poets of his generation This collection of new critical essays offers an important retrospective assessment of the nature of his poetic achievement Bringing together many leading scholars of modern and contemporary Irish poetry including a notable number of accomplished poet critics its contributors range widely across Mahon's body of work Their essays offer fresh considerations of the biographical geographical and literary contexts that shaped his poetic voice This includes paying attention not only to more familiar influences but also to previously little considered interlocutors The stylistic and formal achievement of his voice is re-evaluated in ways that range from attentive close readings to considerations of his controversial practice of self-revision and his engagements with music and experiments in translation The politics of a poet often misleadingly considered apolitical are also reframed to take in the engagements of his early work through to the ecocritical commitment of his later poetry Indeed a notable aspect of this book is the consideration it gives to all the phases of Mahon's career As a whole the collection opens up many new ways of reading and understanding Mahon's important body of work [A Woman Looking at Men Looking at Women](#) Siri

The Valtellina and UNESCO Thomas J. Puleo,2012-09-16 Global in scope and transdisciplinary in method this work examines the process through which local historic landscapes become global heritage sites The Valtellina a valley in the Italian Alps is known for being unusually fertile for its elevation and latitude and for the dry stone terraces on its steep hillsides that make this fertility possible ProVinea a local nonprofit has applied to UNESCO to inscribe these landscapes onto its World Heritage list representing the construction and use of the terraces as the heroic transformation of barren slopes into fertile fields Drawing on Michel Serres theory of serial parasitism this study demonstrates how ProVinea discursively and materially remakes the landscapes by culling the advantageous eliminating the detrimental and assembling the dispersed A casualty of this process is a more complex and complete truth one that this book aims to restore while also acknowledging the validity of World Heritage s efforts to build a global culture and ProVinea s desire to connect to it

Heidegger and Jewish Thought Elad Lapidot,Micha Brumlik,2017-11-15 Once a prophet of critical other thought Heidegger has now for many become the epitome of the unthinkable in the light of the Black Notebooks controversy The unthinkable here is anti Semitism The encounter between Heidegger and the Jews has thus come to signify very much in the spirit of Heidegger s own anti Judaism the end of thought The present volume resists this view by positing not only Heidegger but also the Jewish people as representing thought The encounter between Heidegger and various traditions of Jewish thought is conceived here as a conversation inter alia an exchange between real or perceived others others to the philosophical tradition to mainstream modernity to Western Christian metaphysics to each other and even to themselves The conversation takes shape in this volume as a symposium of seventeen essays by leading scholars both of Heidegger s philosophy and of Jewish Studies
