bedevil economists and accountants in our own day such as the difference between a sale and a borrowing the just value of future income flows and the presence of asymmetrical information in pricing The result is a vivid record of the color and texture of early modern economic life that reveals a surprising degree of financial sophistication that the present book makes accessible to the modern reader *The American economic review* ,1960 **The British National Bibliography** Arthur James Wells,2003 **Forthcoming Books** Rose Arny,2002 **Books in Print** ,1991 **Business** Ricky W.
