EasySense

Fixture-Mount for Advanced Grouping

The Philips EasySense fixture-mount sensor is the ideal solution for per-fixture control of new light fixtures. It combines occupancy sensing, daylight harvesting and task tuning in a single, compact package for easy OEM fixture assembly. EasySense operates with the established Philips Advance Xitanium SR LED driver standard to make a simple two-wire connection between sensor and driver, thus eliminating the need for multiple components and auxiliary devices. The result is a cost-effective and easy-to-design-in solution ideal for energy-savings and code-compliance strategies. An intuitive app makes configuration and commissioning during and after installation fast and easy using Philips field apps.

EasySense with advanced grouping functionality enables addition of qualified wireless switches. Up to 40 sensors can be grouped to a switch using Philips field apps. In addition to easily adding user control to a space, the grouping feature facilitates auto-off/manual-on and auto-off/partial-on use cases. Furthermore, advanced grouping allows scene setting (e.g., presentation mode for a conference room), as well as occupancy sharing (i.e., fixtures within a group can be programmed to remain at prescribed light levels so long as occupancy is detected anywhere in the group).

EasySense for advanced grouping (SNS200) is also DLC qualified and listed in the QPL for Networked Lighting Controls.

Philips Lighting Manual:

Outdoor Lighting: Physics, Vision and Perception Duco Schreuder, 2008-08-15 The present book is based on the experience of the author The experience is mainly the result of years of research of consulting work and in participation in policy decision making in many fields most but not all related to outdoor lighting To some degree the book represents the preference of the author The selection of the subjects is based on more than 50 years of experience of what is desirable to know for persons engaged in scientific research or practical application in the fields of lighting and vision The subjects deal with a number of fundamental aspects The theorists must have them at their fingertips whereas the practical engineers may assume them as known in their daily work The selection of subjects is based in part by the questions that came to the author over the years but even more by the preference of the author himself In this respect it is a personal book Thus it should be stressed that the book is not a handbook or even a textbook many subjects that commonly are treated in such books are not included here Not because they lack importance but because the author feels that they are adequately treated elsewhere Some relevant works are mentioned in the References Over the years the author has been engaged in giving courses on vision and lighting lately more in particular on Masterclasses on a post graduate or post doctorate level [Lighting Manual](#) Philips Lighting BV (Eindhoven), 1993 **The Lighting Management Handbook** Craig DiLouie, 1993 The complete spectrum of lighting management strategies for efficiency improvement is fully detailed in this straightforward non technical reference Ideal for building owners and managers facility managers or anyone concerned with reducing lighting costs this book cuts through the maze of technical details to provide clear readily applicable lighting answers The author has placed special emphasis on the importance of effective maintenance and the benefits of a well planned and executed lighting management program In addition the environmental aspects of lighting management are thoroughly addressed **The Printing Ink Manual** Robert Leach, 2012-12-06 The Printing Ink Manual was first published in 1961 under the auspices of the Society of British Printing Ink Manufacturers with the object of providing an authoritative work on printing ink technology This the fourth edition continues that purpose and presents a comprehensive study of the current state of the art in the ink industry For those starting in the printing ink industry it is a textbook dealing with all aspects of the formulation and manufacture of printing ink For the ink technician it is a practical manual and useful source of reference For printers and users of printed material the manual supplies helpful information on the nature and behaviour of ink both on the printing press and as the finished print Readers with a little scientific knowledge will have no difficulty in using the manual but as in previous editions sufficient chemistry and physics have been introduced to assist the advanced technician and research scientist **The Printing Ink Manual** R. H. Leach, Robert Leach, 1993-09-30 In print for over thirty years The Printing Ink Manual published on behalf of the Society of British Printing Ink Manufacturers is the industry bible for all printing ink technologists manufacturers packaging and publishing printers all over the world Thoroughly revised and updated

throughout the new material present in this fifth edition reflects the substantial developments that have taken place in recent years including The dramatic expansion in the use of lithographic inks with particular attention to cold set head set sheet set sheet fed and web offset and metal decorating inks The use of flexographic inks in newspaper printing Ink jet inks a complete new chapter has been added The most recent theories of high speed measurements in the rheology of inks The European Quality Assurance Standards ISO 9000 The latest legislation on health safety and the environment LIST All chapters have been reviewed updated and expanded wherever needed Further important features include a listing of all the raw materials used regularly in the manufacture of printing inks giving full information on their physical and chemical properties Formulation technology is fully illustrated with practical examples and the significance of environmental issues and quality management is also covered in detail Legislation mainly European and from the United States together with specifications set by world wide end users have established printing ink as a truly international product Many of the chapters in The Printing Ink Manual have been written by authors working for international companies to ensure that the contents include the widest international practices and The Printing Ink Manual therefore represents an international reference source which is used throughout the world
