Methods of Doing Eastern Philosophies Chanh Phan, **Academic Writing, Real World Topics** Michael Rectenwald, Lisa Carl, 2015-05-28 Academic Writing Real World Topics fills a void in the writing across the curriculum textbook market. It draws together articles and essays of actual academic prose as opposed to journalism; it arranges material topically as opposed to by discipline or academic division and it approaches topics from multiple disciplinary and critical perspectives. With extensive introductions, rhetorical instruction and suggested additional resources accompanying each chapter, Academic Writing Real World Topics introduces students to the kinds of research and writing that they will be expected to undertake throughout their college careers and beyond. Readings are drawn from various disciplines across the major divisions of the university and focus on issues of real import to students today, including such topics as living in a digital culture, learning from games, learning in a digital age, living in a global culture, our post-human future, surviving economic crisis and assessing armed global conflict. The book provides students with an introduction to the diversity, complexity and connectedness of writing in higher education today. Part I: a short Guide to Academic Writing teaches rhetorical strategies and approaches to academic writing within and across the major divisions of the academy. For each writing strategy or essay element treated in the Guide, the authors provide examples from the reader or from one of many resources included in each chapter's Suggested Additional Resources. Part II: Real World Topics also refers extensively to the Guide. Thus the Guide shows student writers how to employ scholarly writing practices as demonstrated by the readings, while the readings invite students to engage with scholarly content. **Academic Writing, Real World Topics - Concise Edition** Michael Rectenwald, Lisa Carl, 2016-07-20 Academic Writing Real World Topics fills a void in the writing across the curriculum textbook market. The Structure of Philosophical Discourse Kyle Lucas,Sarah Lucas,2024-03-29 This book builds on existing work in genre analysis and move analysis in English for Specific Purposes ESP and applies this new framework to academic philosophical discourse offering new insights into how ESP traditions can elucidate shifts in language conventions across disciplinary contexts The volume begins by surveying the state of the art in English for Specific Purposes and genre theory as well as other genre theory paradigms before turning the focus on move analysis Lucas and Lucas seek to maximize the potential of move analysis to precisely operationalize functional units of discourse by implementing a cognitive theory of genre grounded in frame semantics Using the case of academic research articles in philosophy the authors demonstrate how this framework can reveal distinctive dimensions unique to philosophical discourse and in turn how such an approach might be applied more broadly to examine nuances in language across disciplines and inform ESP research in the future This book will appeal to students and researchers in English for Specific Purposes discourse analysis academic writing applied linguistics and rhetoric and composition
