Preparing Quality Teachers Drew Polly, Eva Garin, 2022-03-01 National and international teacher education organizations and scholars have called for an increased emphasis on clinical practice in educator preparation programs. These recommendations include specific efforts to increase the duration, diversity, and quality of experiences that teacher candidates engage in during their time in P-12 schools while earning their teaching license. This book includes a robust set of chapters that include conceptual, theoretical, and empirical chapters related to innovative approaches in clinical practice in educator preparation. Authors include teacher educators from around the United States and Canada from a variety of types of higher education institutions. The book provides readers with examples, evidence, and ideas to thoughtfully consider their future direction in examining, planning, and implementing clinical practice experiences for teacher candidates.

Cornerstones of Strong Schools Jeffrey Zoul, Laura Link, 2013-10-02 This book describes the practices of principals who develop and maintain purposeful learning communities. It applies and extends nine of the leadership responsibilities identified in research conducted by Marzano, Waters, and McNulty in *School Leadership That Works*.

Embedded Librarianship: Tools and Practices Buffy J. Hamilton, 2013-01-01 This issue of *Library Technology Reports* explores how embedded librarians can use free and low-cost teaching technologies to support and enhance participatory learning experiences in school and academic libraries.

After Pomp and Circumstance Vered Vinitzky-Seroussi, 1998-06-08 Menacing, nerve-racking, uncomfortably intrusive, the high school reunion has become a dreaded encounter with past and present for many Americans. It is a moment of both heightened self-awareness and public presentation, insisting that we account for ourselves not merely to our own satisfaction but to the satisfaction of others as well. For sociologist Vinitzky-Seroussi, the high school reunion presents an ideal forum in which to explore the ongoing construction of identity in American society and perhaps to ascertain just how we have managed to make sense of our lives from then to now. As autobiographical occasions, reunions prompt us to examine our own life narratives, the stories we tell ourselves about who we are and how we have come to be that person. But at the same time, they can threaten the integrity of those very stories, subjecting them to the scrutiny of others whose memories of the past and ourselves may be altogether different from our own. Reunions then engender a fragile community held together by the resources of a shared past yet imperiled by the tensions of competing histories. Inevitably, for both those who attend and those who choose not to, the reunion forces a kind of biographical confrontation, an unavoidable and often pivotal engagement between a carefully constructed personal identity and the socially prevalent standards of success and accomplishment. Though many see in today's culture the gradual demise of personal identity, Vinitzky-Seroussi's carefully researched study reveals something quite different. *After Pomp and Circumstance* explores a struggle we all experience: the desire to resolve the tension between public conceptions and internal understandings to maintain a sense of continuity between past and present lives and to lay claim to both an integrated self.
