In this course students will learn about image copyright, identify the components of the Photoshop environment, learn about the differences between raster and vector graphics, and learn how to use Adobe Bridge. Students will explore various methods of selecting image areas and will learn how to modify and manipulate selections. In addition, students will learn how to work with text layers and layer effects, how to adjust, retouch, and resize images, and how to prepare images for printing and the Web. Course manual comes with CertBlaster exam prep software download. Photoshop CS5: Production, Student Manual Axzo Press, 2011-02-07 Photoshop CS5 Production ACA Edition is part of a three course ILT series which is designed to help students prepare for the Adobe Certified Associate exam for Photoshop CS5. This course focuses on the specific information needed to create professional looking images for high end business printers and commercial print shops. In this course students will learn project management basics and how to create layer comps. They will also learn how to optimize color management for print. They will explore various techniques for adjusting the quality of an image and making color adjustments. Students will learn how to use CMYK separations for prepress, customize ink options, and adjust CMYK curves. Students will also explore various options for using grayscale, spot color, and duotones. Finally, they will learn how to optimize images for the Web, balancing quality and file size, and how to prepare images for use in video productions. Course manual comes with CertBlaster exam prep software download.
