Forward with Classics Arlene Holmes-Henderson, Steven Hunt, Mai Musié, 2018-08-09 Despite their removal from England's National Curriculum in 1988 and claims of elitism Latin and Greek are increasingly re entering the mainstream educational arena Since 2012 there have been more students in state maintained schools in England studying classical subjects than in independent schools and the number of schools offering Classics continues to rise in the state maintained sector The teaching and learning of Latin and Greek is not however confined to the classroom community based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century The role of classical languages within the English educational policy landscape is examined as new possibilities exist for introducing Latin and Greek into school curricula The state of Classics education internationally is also investigated with case studies presenting the status quo in policy and practice from Australasia North America the rest of Europe and worldwide The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success

Holding Together John Shattuck, Sushma Raman, Mathias Risse, 2022-05-31 A bold new assessment of the multipronged attack on rights in the United States and how to push back An overwhelming majority of Americans agree that rights are essential to their freedom and that rights today are severely threatened The promise of rights has been reimagined at pivotal moments in American history from the American Revolution to the Civil War to the Civil Rights Movement Can

today become another time of transformation Holding Together is about the promise of rights as a source of American identity the struggle to realize rights by countless Americans to whom the promise has been denied or not fulfilled the hijacking of rights by politicians who seek power by dividing and polarizing and the way forward in which rights can bring Americans together instead of tearing them apart Drawing on a series of town hall meetings with representative groups of citizens across the country discussing their concerns over rights new national opinion polls from all demographic groups and political perspectives conducted in 2020 and 2021 and extensive research Holding Together is a road map for an American rights revival John Shattuck Sushma Raman and Mathias Risse present a comprehensive account of the current state of rights in the United States and concrete recommendations to policy makers and citizens on how to reclaim them **Policy Documents and Reports** AAUP,2015-01-29 The essential guide to the AAUP s best practices and policies for higher education now in its centennial edition For the past century the American Association of University Professors AAUP has developed standards for sound academic practice while working for the acceptance of these standards by the higher education community The Association has long been viewed as the authoritative voice of the academic profession in this regard The AAUP s Policy Documents and Reports widely known as the Redbook because of the color of its cover presents in convenient format a wide range of policies in some instances formulated in cooperation with other educational organizations The current edition the eleventh includes basic statements on academic freedom tenure and due process academic governance professional ethics research and teaching online and distance education intellectual property discrimination collective bargaining accreditation and students rights and freedoms The new edition has been thoroughly updated and reorganized thematically Brief historical introductions have been added to each section along with an introductory essay on incorporating AAUP principles into faculty handbooks Among the eighteen new reports included in this edition are statements on academic freedom and outside speakers campus sexual assault the inclusion of faculty on contingent appointments in academic governance and salary setting practices that unfairly disadvantage women faculty Inclusive Educational Administration Mary Konya Weishaar,Phillip M. Weishaar,John C. Borsa,2014-01-30 The belief that regular and special education administrators should work together to create and maintain successful education programs for all students is not new nor is the assumption that administrator preparation programs should foster the development of an inclusive approach yet this critical educational partnership has not reached its full potential Despite the lack of agreement within the federal legislative branch on exactly what should be changed within our education system some promising points of consensus have emerged competitive grants college and career readiness multi tiered systems of support common core standards a rewards based rather than punitive system for school improvement the critical role of effective teachers and principals increased school choice options and evidence based learning strategies particularly in high need schools The third edition stresses the importance of these key points Each chapter features case studies that simulate real life situations

readers are likely to encounter in their careers as administrators Within the safety of the classroom they will rehearse controversial scenarios involving inclusive school governance school reform identification and placement conflict resolution program evaluation fiscal issues transportation and discipline Enhanced practice situations and role play exercises emphasize the special education administrator s role in resolving difficult situations The case study approach is an effective learning tool for aspiring special and regular education administrators and instructors alike fostering enthusiastic classroom discussion and critical thinking about potential solutions to today s complex problems in inclusive educational administration
