This book explores how ideas about race travelled across national borders in early twentieth century Latin America It builds on a vast array of scholarly works which underscore the highly contingent and flexible nature of race and racism in the region The framework of the nation state dominates much of this scholarship in part because of the important implications of ideas about race for state policies This book argues that we need to investigate the cross border elaboration of ideas that informed and fed into these policies It is organized around three key policy areas labour cultural heritage and education and focuses on conversations between Chilean and Peruvian intellectuals about the indigenous question Most historical scholarship on Chile and Peru draws attention to the wars fought in the nineteenth century and their long term consequences which reverberate to this day Relations between the two countries are therefore interpreted almost exclusively as antagonistic and hostile Itinerant Ideas challenges this dominant historical narrative Great Investment Ideas William T Ziemba,2016-09-08 Great Investment Ideas is a collection of articles published in the Journal of Portfolio Management from 1993 to 2015 The book contains useful ideas for investment management and trading and discusses the methods results and evaluation of great investors It also covers important topics such as the effect of errors in means variances and co variances in portfolio selection problems stock market crashes and stock market anomalies portfolio theory and practice evaluation theory etc This book is a must have publication for investors and financial experts researchers and graduate students in finance **Official Monthly Bulletin of the Inter-state Cotton Seed Crushers' Association** ,1929
