

Activity: Predicting Outcomes

Sometimes you can predict the outcome of an event.
This means you can tell what will most likely happen.

1. Predict the color the spinner will land on most often.

Use a paper clip and pencil.
Spin the spinner 10 times.
Record each spin on the tally chart.

Color	Tally	Total
White		
Gray		
Black		

Look at the
"Total" column.

2. Which color did you land on most often?

Russel, Richard Merle Harbeck, 1962 **What Really Works in Special and Inclusive Education** David Mitchell, 2014-01-10 As teachers around the world deal with the challenges of inclusive education they must find effective ways of enhancing their classroom teaching methods. What Really Works in Special and Inclusive Education presents teachers with a range of evidence based strategies they can immediately put into practice in their classrooms. This unique book will be an invaluable resource for educators who may not have the time or the inclination to engage with theory heavy research but who wish to ensure that their teaching strategies are up to the minute and proven to be the most effective best practices. Each of the 27 strategies that this book comprises has a substantial research base, a strong theoretical rationale and clear guidelines on their implementation as well as cautionary advice where necessary. In this new second edition David Mitchell, a leading writer in special and inclusive education, continues to break new ground with revised and updated strategies based on evidence from the most recent studies in the field. From the myriad of related research available only those studies with genuine potential for improving the practices of teachers and schools have been included with the aim of facilitating high quality learning and social outcomes for all learners in schools. Updates to this new edition include four new chapters on response to intervention, universal design for learning, inter agency cooperation and one on the Finnish education system, over 350 new references, an even wider international focus including evidence drawn from Asia, references to recent developments in neuroscience, a new companion website with extra case studies, links to further reading, journal articles and videos and an interactive quiz at www.routledge.com/cw/mitchell.
