Safe and Effective Medicines for Children Institute of Medicine, Board on Health Sciences Policy, Committee on Pediatric Studies. Conducted Under the Best Pharmaceuticals for Children Act (BPCA) and the Pediatric Research Equity Act (PREA), 2012-10-13. The Best Pharmaceuticals for Children Act (BPCA) and the Pediatric Research Equity Act (PREA) were designed to encourage more pediatric studies of drugs used for children. The FDA asked the IOM to review aspects of pediatric studies and changes in product labeling that resulted from BPCA and PREA and their predecessor policies as well as assess the incentives for pediatric studies of biologics and the extent to which biologics have been studied in children. The IOM committee concludes that these policies have helped provide clinicians who care for children with better information about the efficacy, safety and appropriate prescribing of drugs. The IOM suggests that more can be done to increase knowledge about drugs used by children and thereby improve the clinical care, health and well-being of the nation's children.

Homeland Security and Private Sector Business Elsa Lee, 2008-10-22. The challenge in combating terrorism is not that any of us could die tomorrow in an attack but that we cannot seem to perform the basic functions of diagnosing and treating the problem so that it is manageable. Given this and because public and private sector partnerships are critical to the success of this management, Homeland Security and Private Sector Partnerships are critical to the success of this management.
