Elements of Physical Chemistry Peter Atkins, Julio de Paula, 2013 Elements of Physical Chemistry has been carefully crafted to help students increase their confidence when using physics and mathematics to answer fundamental questions about the structure of molecules how chemical reactions take place and why materials behave the way they do

Genetics and Analysis of Quantitative Traits Bruce Walsh, Peter M. Visscher, Michael Lynch, 2025-08-21 Almost every trait in nature shows variation both within populations and between populations and species The field of quantitative genetics is the very broad umbrella that attempts to separate environmental from genetic sources of variation As a result it has powerful applications in animal and plant breeding evolution ecology medicine anthropology behaviour population genetics conservation biology genomics and statistics This second edition of Genetics and Analysis of Quantitative Traits is a fully rewritten and greatly expanded revision of the first edition published in 1998 which provided the first modern unified treatment of quantitative genetics In the past two decades there have been massive advancements in the field coupled with explosive growth in new quantitative methods those developments are covered in this new edition The book weaves important biological applications with a full development of the theory and

appropriate statistical tools There are extensive discussions of important linear algebra tools linear and mixed models likelihood and Bayesian estimation as well as false discovery rates multiple comparisons and meta analysis More than 100 worked examples ranging from microbes to humans illustrate the key concepts using real world applications This extensive reference will be suitable for graduate level students and professional researchers both empiricists and theoreticians in the fields of evolutionary biology genetics and genomics It will also be of particular relevance and use to applied evolutionary biologists working in breed improvement for agriculture human geneticists and statisticians
