

**"The Policies and Achievements of the Government and Regeneration of the Filipino"**

**By: Manuel L. Quezon**

**CRITIQUE PAPER**

Being a President of a country is a hardworking one, and a challenging one, because it's up to you what would be the scenario in your country. You will be the one to manage your country. In the year, 1935 to 1945 Manuel Luis Quezon y Molina he was became the President of the Commonwealth of the Philippines. He was born on August 19, 1878. He was the first Filipino to head a government of the entire Philippines. He have been considered the second President of the Philippines, after Emilio Aguinaldo. Being a President for him is a challenging one because he had been faced a lot of problems that try of what he can do to solved those problems.

The speech of Manuel L. Quezon is considered to be a interesting one. In the speech of our past President he highlight this one trait of Filipinos which is about the bad attitude and manners of the Filipino. He compare the attitude of our ancestors up to the present, in our generation. He didn't intend to offend or to bring the citizens of Philippines down but he wants to point the wrong doings. He wants to tackle of what he want to change about the manners of the Filipinos in our generation. And he want to preserve of what our ancestors attitude have, and he want for us to inherit it. In the speech that he delivered he pointed about the claims; claims of fact, claim of value and claim of policy. Claim of fact referred about a quantifiable assertion, or a measurable topic. They assert something that existed, exists or will exist based on data. It usually answer the question "what". Claim of value is about, assert something that can be qualified. They consist of arguments about moral, philosophical, or aesthetic topics. These types of topic try to prove that some values are more or less desirable compared to others. They make judgements. Claim of policy posit that specific actions should be chosen as solution to a particular problem. They begin with a word "should", "ought to" or "must". They defend actionable plans, usually answer the question "how". In the first stanza of Manuel L. Quezon speech he said that " National strength can only be built on character" and that is an example of claim of fact, because we will have a progressive nation if we have a good character. Because good character is equivalent to a good country. Also, in the first stanza of his speech, you can find an example of claim of policy, " We must find the flaws, if there be any, in our concept of individual and community life, as well as in our character, and proceed at once to remedy them " I can say that this is an example of claim of policy because from the word "must" and it answered the question "

**Lecture Notes on Paper Critique** L. O. Ogundipe, Hodgson, R. E., 2005 The text is presented in chunks of approximately 10 True False questions on specific concepts in research methodology and statistics This is followed by clear explanations from first principles that assume no prior knowledge This book is for the paper critique section of the MRCPsych 2 examination but clinical tutors organisers of journal clubs and clinicians interested in research will find the book helpful It is particularly invaluable for clinicians interested in evidence based medicine This book is intended to be used as an aide memoir carried in the pocket and referred to as often as necessary It enables self assessment to be carried out in the hope that any gaps in knowledge will be identified Much of this book focuses on practical application of statistical and research methodology concepts into critical paper reading The reader is encouraged to attempt the questions before the reading the suggested answers *Basic Steps in Planning Nursing Research* Pamela J. Brink, Marilyn J. Wood, 2001 This text explores the theory rationale and literature behind nursing research viewing the research proposal as a problem solving process and focusing on the beginning phase of research the research plan It shows how to write a researchable question develop a research problem use and critique Selected Papers of Frederick Mosteller Stephen E. Fienberg, David C. Hoaglin, 2007-02-01 One of the best known statisticians of the 20th century Frederick Mosteller has inspired numerous statisticians and other scientists by his creative approach to statistics and its applications This volume collects 40 of his most original and influential papers capturing the variety and depth of his writings It is hoped that sharing these writings with a new generation of researchers will inspire them to build upon his insights and efforts How to Read and Critique Research Helen Aveyard, Nancy Preston, Morag Farquhar, 2022-11-23 Do you find research challenging to read Do you struggle to get to grips with a research paper Understanding critiquing and using research is a key requirement of students studying nursing and healthcare This book will equip you with the skills you need to understand research and use it in your practice and academic assignments The approach used in this book is unique each chapter focuses on a published research paper one you might be asked to read for a seminar or include in your academic work In clear straightforward language the authors take you through each paper step by step using it as a basis for exploring the underpinning research method or design and how it has been reported Key features Each chapter focuses on a different research method by working through a relevant research paper Identifies the main skills you need for your course understanding research methods and critiquing articles Written specifically for nursing and healthcare students by experienced nursing and health care lecturers Develops your confidence in understanding research by helping you to apply your knowledge to real research papers You Can Publish Your Journal Article Gilbert C. Gee, 2023-11-27 You've completed your research and want to publish it in a peer reviewed journal Author Gilbert C Gee is here to help sharing what he learned as a writer reviewer and Editor in Chief and calling on other journal editors to offer their advice You Can Publish Your Journal Article will not only help you write your paper but

more importantly be more likely to succeed in peer review The book has four main premises that writing involves a relationship between you and your readers and that your research joins an ongoing conversation in the field that good writing is rewriting and revision is critical that people who write daily are more productive than those who binge write and finally that persistency wins so don't give up when you get a rejection With chapters offering practical advice on selecting the right journal peer review the methods section displaying your data writing the results and discussion sections the book concludes with short essays from invited journal editors about how to avoid common mistakes and ensure success **A**

**Critique of the Pearson Chi-function** William John Kirkham, 1928 Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2012 The second edition of the Handbook of Feminist Research Theory and Praxis presents both a theoretical and practical approach to conducting social science research on for and about women The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies methodologies and methods that have had a significant impact on feminist research practice and women's studies scholarship The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology methodology and method The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women's lives and the lives of other marginalized groups with the goals of empowerment and social change *The Routledge Handbook of Methodologies in Human Geography* Sarah A. Lovell, Stephanie E. Coen, Mark W. Rosenberg, 2022-10-18 The Routledge Handbook of Methodologies in Human Geography is the defining reference for academics and postgraduate students seeking an advanced understanding of the debates methodological developments and methods transforming research in human geography Divided into three sections Part I reviews how the methods of contemporary human geography reflect the changing intellectual history of human geography and events both within human geography and society in general In Part II authors critically appraise key methodological and theoretical challenges and opportunities that are shaping contemporary research in various parts of human geography Contemporary directions within the discipline are elaborated on by established and emerging researchers who are leading ontological debates and the adoption of innovative methods in geographic research In Part III authors explore cross cutting methodological challenges and prompt questions about the values and goals underpinning geographical research work such as Who are we engaging in our research Who is our research for What are our relationships with communities Contributors emphasize examples from their research and the research of others to reflect the fluid emotional and pragmatic realities of research This handbook captures key methodological developments and disciplinary influences emerging from the various sub disciplines of human geography Latent Variable Analysis and Signal Separation

Vincent Vigneron, Vicente Zarzoso, Eric Moreau, Rémi Gribonval, Emmanuel Vincent, 2010-09-27 This book constitutes the proceedings of the 9th International Conference on Latent Variable Analysis and Signal Separation LVA ICA 2010 held in St Malo France in September 2010 The 25 papers presented were carefully reviewed and selected from over hundred submissions The papers collected in this volume demonstrate that the research activity in the field continues to gather theoreticians and practitioners with contributions ranging range from abstract concepts to the most concrete and applicable questions and considerations Speech and audio as well asbiomedical applications continue to carry the mass of the considered applications Unsurprisingly the concepts of sparsity and non negativity as well as tensor decompositions have become predominant reflecting the strongactivity on these themes in signal and image processing at large
