world of rich and complex texts Given such changes and given the diverse ways in which younger generations of college
students are writing communicating and designing texts in multimediated electronic environments we need to consider how
the very act of writing itself is undergoing potentially fundamental changes These changes are being addressed increasingly
by the emerging field of digital rhetoric a field that attempts to understand the rhetorical possibilities and affordances of
writing broadly defined in a wide array of digital environments Of interest to both researchers and students this volume
provides insights about the fields of rhetoric writing composition digital media literature and multimodal studies

Fundamentals and Flaws of Standards-Based Testing Charlie DePascale,2025-05-30 When put to the test will
standards based reporting remain as fundamentally flawed as once feared or can next generation approaches refine the
system for the better Fundamentals and Flaws of Standards Based Testing offers an inside perspective on the technical
challenges encountered during each phase of the assessment cycle Careers in state testing are spent balancing technical
logistical financial political psychological sociocultural emotional and measurement considerations while keeping an eye on
the educational goals of the state assessment program This insightful and comprehensive book draws on measurement
foundations and real life experiences in state testing to discuss critical and still unresolved technical and policy challenges
that are being inherited by today s assessment specialists and psychometricians Going beyond core descriptions of
psychometric and assessment development procedures and operational best practices in testing this book exposes graduate

students and scholars of educational measurement and policy as well as testing industry professionals to real life pressures faced by those charged with designing implementing and maintaining a large scale state assessment program Standard setting test design score reporting validation and more are approached critically and with authentic context

Changing Practices for the L2 Writing Classroom Nigel A. Caplan,Ann Johns,2019-04-26 This volume was written to make the case for changes in second language writing practices away from the five paragraph essay and toward purposeful meaningful writing instruction As the volume editors say If you have already rejected the five paragraph essay we offer validation and classroom tested alternatives If you are new to teaching L2 writing we introduce critical issues you will need to consider as you plan your lessons and as you consider review the textbooks and handbooks that continue to promote the teaching of the five paragraph essay If you need ammunition to present to colleagues and administrators we present theory research and pedagogy that will benefit students from elementary to graduate school If you are skeptical about our claims we invite you to review the research presented here and consider what your students could do beyond writing a five paragraph essay if you enacted these changes in practice Part 1 discusses what the five paragraph essay is not it is not a very old established form of writing it is not a genre and it is not universal Part 2 looks at writing practices to show the essay s ineffectiveness in

elementary schools secondary schools first year writing classes university writing courses undergraduate discipline courses and graduate school Part 3 looks beyond the classroom at testing At the end of each chapter the authors all well known in the field of second language writing suggest changes to teaching practices based on their theoretical approach and classroom experience The book closes by reviewing some of the major questions raised in the book by exploring which questions have been left unanswered and by offering suggestions for teachers who want to move away from the five paragraph essay An assignment sequence for genre aware writing instruction is included
