Pearl Harbor Attack on Pearl Harbor

Pearl Harbor is located in Hawaii. It is a major military facility. Because the base is so far from Japan, many believed that an attack on Pearl Harbor would be impossible. However, on December 7, 1941, Japan attacked the base. The attack was a total surprise. Many Americans were in shock. The United States was trying to stay out of the World War II, which was going on in different parts of the world. However, on December 8, 1941, the day after the Pearl Harbor attack, the United States declared war and became involved in World War II. During his speech after the attack, President Roosevelt stated that December 7th would be a date "that would live in infamy."

The attack was **devastating** to the Navy. Since the attack happened on a Sunday, many people at the base were not prepared. The Japanese launched airplanes from a ship and used small submarines to attack. The Japanese believed that if they destroyed Pearl Harbor, the United States would be slow to recover. They dropped bombs and **torpedoes** across the harbor. They also attacked airports. These attacks occurred in two different waves, and all occurred in just under two hours. During this time, the Japanese destroyed many ships and airplanes including the USS Arizona. When this ship sank, 1,100 men died. The United States had far more deaths during the attack than Japan. Despite all the damage the United States were able to rebuild all their ships except three. There were also many things that did not get damaged. Oil and fuel **depots** were not damaged and because some of the ships were out to sea, they did not get damaged. The United States worked to restore Pearl Harbor after the attack.

Today, there is a **memorial** in Pearl Harbor for all the soldiers who lost their lives. The memorial is built on top of the wreck of the USS Arizona. Every president since the attack has visited the **memorial**. Pearl Harbor continues to be a major naval base for the Pacific Ocean.
