World Development Indicators 2015 World Bank, 2015-04-10. World Development Indicators 2015 provides a compilation of relevant high-quality and internationally comparable statistics about global development and the fight against poverty. It is intended to help policymakers, students, analysts, professors, program managers, and citizens find and use data related to all aspects of development, including those that help monitor progress toward the World Bank Group's two goals of ending poverty and promoting shared prosperity. Six themes are used to organize indicators: world view, people, environment, economy, states and markets, and global links. As in past editions, World Development Indicators reviews global progress toward the Millennium Development Goals (MDGs) and provides key indicators related to poverty. WDI 2015 includes a selection of the most popular indicators across 214 economies and 14 country groups, organized into six WDI themes. Thematic and regional highlights providing an overview of global development trends. An in-depth review of the progress made toward achieving the Millennium Development Goals. A user guide describing resources available online and on mobile apps. A complementary online data analysis tool is available this year to allow readers to further investigate global, regional, and country progress on the MDGs. Each of the remaining sections includes an introduction, six stories highlighting specific global, regional, or country trends, and a table of the most relevant and popular indicators for that theme, together with a discussion of indicator compilation methodology. WDI DataFinder Mobile App: Download the WDI DataFinder Mobile App and other Data Apps at data.worldbank.org/apps. WDI DataFinder is a mobile app for browsing the current WDI database on smartphones and tablets using iOS, Android, and BlackBerry, available in four languages: English, French, Spanish, and Chinese. Use the app to browse data using the structure of the WDI, visually compare countries and indicators, create, edit, and save customized tables, charts, and maps, share what you create on Twitter, Facebook, and via email.

Towards Democratic Development States in Southern Africa Godfrey Kanyenze, Herbert Jauch, 2016-12-14. The dawn of the twenty-first century heralded an apparent change of fortunes for most sub-Saharan African economies, with annual growth averaging over 5% for fifteen years. However, this was not accompanied by structural transformation; poverty, food insecurity, unemployment, and inequality persist. Structural transformation has not been, and indeed cannot be, delivered by market forces and neo-liberal economic policies; it requires a state committed to development and to achieving it in a democratic way. To what extent do the countries of Southern Africa exhibit the characteristics of such a developmental state? What steps, if any, do they need to take in order to become one? The book

answers the questions with respect to South Africa Botswana Namibia Zimbabwe Angola and Malawi Godfrey Kanyenze and his colleagues have assembled a distinguished team of writers to take the temperature of the regional political economy and chart a path for its future development *Citizenship Law in Africa: 3rd Edition* Bronwyn Manby, 2015-02-02 Few African countries provide for an explicit right to a nationality Laws and practices governing citizenship effectively leave hundreds of thousands of people in Africa without a country These stateless Africans can neither vote nor stand for office they cannot enrol their children in school travel freely or own property they cannot work for the government they are exposed to human rights abuses Statelessness exacerbates and underlies tensions in many regions of the continent *Citizenship Law in Africa* a comparative study by two programs of the Open Society Foundations describes the often arbitrary discriminatory and contradictory citizenship laws that exist from state to state and recommends ways that African countries can bring their citizenship laws in line with international rights norms The report covers topics such as citizenship by descent citizenship by naturalisation gender discrimination in citizenship law dual citizenship and the right to identity documents and passports It is essential reading for policymakers attorneys and activists This third edition is a comprehensive revision of the original text which is also updated to reflect developments at national and continental levels The original tables presenting comparative analysis of all the continents nationality laws have been improved and new tables added on additional aspects of the law Since the second edition was published in 2010 South Sudan has become independent and adopted its own nationality law while there have been revisions to the laws in Cte d'Ivoire Kenya Libya Mali Mauritania Namibia Niger Senegal Seychelles South Africa Sudan Tunisia and Zimbabwe The African Commission on Human and Peoples Rights and the African Committee of Experts on the Rights and Welfare of the Child have developed important new normative guidance **Political Handbook of the World 2018-2019** Tom Lansford, 2019-03-19 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2018 2019 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies This comprehensive update will include coverage of current events issues crises and controversies from the course of the last two years including Elections across Europe Referendum in Ireland Rohingya genocide in Myanmar The Venezuelan dictatorship The renaming of Swaziland to eSwatini Qatar diplomacy changes Historic meeting between the United States and North Korea Establishment of a new governing coalition in Liberia *Global Anti-Money Laundering Regulation* Nkechikwu Azinge-Egbiri, Nicholas Ryder, Ehi Eric Esoimeme, 2024-11-25 This book explores the politics of money laundering and terrorist financing ML TF

regulation in several countries across Africa and the Small Island States Developed countries created the Financial Action Task Force FATF to combat ML TF globally Expectedly the FATF s standards mirror existing banking regulations within the G7 countries Yet the standards apply to all countries irrespective of the limited ML TF risks they pose to the global economy their weak pre conditions for effective regulation and their non involvement in the FATF s framing Still such countries mainly within the Global South have worked hard to amplify their compliance with the regime due to fears of the repercussions of their non compliance This collection demonstrates how the global ML TF regulation is treated as an implicitly superior legal regime where the Global South must comply irrespective of their perception of the FATF s legitimacy challenges It shows that beyond exogenous factors such as neo colonialism endogenous factors such as weak institutions and corruption undermine the compliance trajectory of the Global South Furthermore it analyses the unintended consequences of transplanting FATF standards into diverse legal and cultural contexts The volume contributes to our understanding of the challenges of transplantation from the Global North and how the Global South is steering within the constraints created by the FATF It advocates for a comprehensive understanding of the nuanced compliance challenges of developing countries It further proposes practical solutions to address them emphasizing the importance of risk based understanding accountability capacity building and coordination in achieving effective anti money laundering and counter terrorist financing measures The collection will be essential reading for researchers academics and policy makers working in financial crime regulation and international economic law

Global Child Myriam Denov, Claudia Mitchell, Marjorie Rabiau, 2023-01-13 Armed conflicts continue to wreak havoc on children and families around the world with profound effects In 2017 420 million children nearly one in five were living in conflict affected areas an increase in 30 million from the previous year The recent surge in war induced migration referred to as a global refugee crisis has made migration a highly politicized issue with refugee populations and host countries facing unique challenges We know from research related to asylum seeking families that it is vital to think about children and families in relation to what it means to stay together what it means for parents to be separated from their children and the kinds of everyday tensions that emerge in living in dangerous insecure and precarious circumstances In Global Child the authors draw on what they have learned through their collaborative undertakings and highlight the unique features of participatory arts based and socio ecological approaches to studying war affected children and families demonstrating the collective strength as well as the limitations and ethical implications of such research Building on work across the Global South and the Global North this book aims to deepen an understanding of their tri pillared approach and the potential of this methodology for contributing to improved practices in working with war affected children and their families
