**Where a Dobdob Meets a Dikdik** Bill Casselman,2010-09-18 How many people know how to pronounce

humhumunukunukuapuaa How many even know what it is Bill Casselman does Dictionary in hand he ll lead you along the highways and byways of English the world s wackiest most widespread language And those who follow will find their vocabularies replete with sesquipedalian vocables and chock a block with euphuistic lexemes of logorrheic From dobdob to dikdik to the outer reaches of ning nong and prick me dainty in wide ranging essays explaining hundreds of words and expressions both common and obscure Casselman revels in the strange the surreal and the mind bogglingly weird You are invited to rootle in odd words and to explore amusing anecdotes about familiar phrases Who knows the origin of the sports phrase hat trick You ll laugh along with Casselman as he celebrates the wonders the complexities and the absurdities of our amazing language Incidentally humhumunukunukuapuaa is a Hawaiian term that means little trigger fish with a small nose like a pig      **Mergent Moody's Industrial Manual** ,1999      **Not Zero** Ross Clark,2023-02-02 Bravely challenging the

Establishment consensus forensically argued Mail on Sunday The British government has embarked on an ambitious and legally binding climate change target reduce the country s greenhouse gas emissions to Net Zero by 2050 The Net Zero policy was subject to almost no parliamentary or public scrutiny and is universally approved by our political class But what will its consequences be Ross Clark argues that it is a terrible mistake an impractical hostage to fortune which will have massive downsides Achieving the target is predicated on the rapid development of technologies that are either non existent highly speculative or untested Clark shows that efforts to achieve the target will inevitably result in a huge hit to living standards which will clobber the poorest hardest and gift a massive geopolitical advantage to hostile superpowers such as China and Russia The unrealistic and rigid timetable it imposes could also result in our committing to technologies which turn out to be ineffective all while distracting ourselves from the far more important objective of adaptation This hard hitting polemic provides a timely critique of a potentially devastating political consensus which could hobble Britain s economy cost billions and not even be effective      The CD-ROM Directory 1996 ,1996 This 15th edition of a yearly report provides a guide to all CD ROM and multimedia titles published In addition to a full description of each title the book contains the names and addresses of all the publishers and information providers      *Cruising World* ,1987-01      **Digital switchover of television**

**and radio in the United Kingdom** Great Britain: Parliament: House of Lords: Select Committee on Communications,2010-03-29 The Committee warns of a major public reaction against radio digital switchover scheduled for 2015 unless the Government make the case for switchover and keep the public informed about its impact There is public confusion and industry uncertainty over radio switchover and concern that due to the lack of public information people are

still buying analogue radios which will be out of date in a few years time Retailers gave evidence stating that they are not getting adequate information on switchover plans so are unable to offer consumers accurate guidance when making purchases The report also points out that car manufacturers are still fitting analogue radios in new cars and digital radios will not be fitted as standard in all cars until 2013 The radio switchover is contrasted with the television switchover programme finding that the benefits of TV switchover were well understood in contrast surveys show that the public are generally happy with the present FM radio system and with the range of programmes that are provided The Committee recommends urgent steps on a range of actions including providing a detailed plan for universal digital radio coverage including how it is to be funded developing a policy for the long term use of FM devising a help scheme for radio switchover financed by general taxation rather than the BBC licence fee ensuring new digital car radios are fitted with a multi standard chip to enable their use overseas encouraging radio manufacturers and retailers to devise a sensible scrappage scheme for redundant analogue radios It is also noted that the BBC and Government disagree over whether the cost of universal digital coverage of their national stations can be met under the current licence fee The report says that it is essential that a firm and unambiguous plan for funding the completion of build out of the digital radio service is put in place as soon as possible The report concludes reversing current policy would be unproductive given the amount of investment in digital radio already and while the switchover in 2015 is ambitious a change of target date is not favoured at this stage
