Cases and Problems in Contemporary Retailing Joseph Barry Mason, Morris Lehman Mayer, Hazel F. Ezell, 1992 The book provides thirty cases from which to choose. Each of the cases is based on real situations; no armchaired situations exist. The cases are long enough to give adequate data for analysis but not so long so as to be cumbersome. The number and variety of cases, issues, types of operations, levels of sophistication, levels of management addressed, and so forth assure that this book can be used at any level by any instructor who believes in and appreciates the value of case analysis as a teaching technique. Discussion Motivators are included in Appendix B. This component fills a market demand for increasing class interaction on topics which are difficult to cover in any other way. The book also contains numerous problems for practice, illustrations, and homework.

50 Ways to Master Your Sewing Machine Linda Denner, 1996 Today's sewing machines allow even novice sewers to embroider and produce garments of professional quality. Computerization provides the accuracy and repeatability that was previously achieved only through years of experience. But most sewers do not employ the full capabilities of their machines. *50 Ways to Master Your Sewing Machine* will change that. It picks up where the often inadequate owner's manuals leave off and guides sewers in exploring the time saving and creative potential of their machines.

The Machine Embroiderer's Workbook also contains a list of useful addresses of manufacturers and material suppliers. Val Holmes is the author of *Gardens in Embroidery*.
