

Spring break is a much-needed break for students to relax and recharge after a busy semester. However, for students in the Prince George's County Public Schools (PGCPS) district, spring break can also mean a hefty load of homework.

As students, we understand how difficult it can be to balance school work with other responsibilities and commitments. And adding more work during a break that is supposed to be a time for rest and rejuvenation can be overwhelming.

But unfortunately, PGCPS has a policy that requires students to complete homework over spring break. This means that students are expected to continue their studies and complete assignments during their time off.

While the intention behind this policy may be to ensure that students do not fall behind in their studies, it can often have the opposite effect. Many students struggle to find the motivation to complete their assignments during a break, leading to a rushed and incomplete work.

Moreover, spring break is also a time for students to spend quality time with their families and friends. With the added pressure of homework, students may miss out on valuable time with their loved ones.
