Inquiries into the Mind traces the multiple relations between the mind and the contemporary novel. The contributors here examine various types of narrative fiction ranging from the postmodern novels of J. M. Coetzee and Ian McEwan through the experimental prose of Leslie Scalapino to the popular fiction of James Dashner and Christopher Moore. On the one hand they investigate novelistic representations of various mind-related issues including different states of consciousness, Alzheimer's disease, thought experiments and formation of the self. On the other, by analysing and evaluating in these contexts such narrative devices as unreliable narration, development of conceptual networks or multimodal integration of verbal and non-verbal semiotic resources, they exemplify the multiplicity of techniques whereby the novel can explore the intricacies of mental processes. Taken together, the essays collected here demonstrate the potential of the novel as genre for representing the mind. In its exploration of the problems involved in the linguistic construction of reality, the cognitive function of art and the uncertain status of consciousness, the contemporary novel thus reflects the mind's urge to understand itself as well as possible meanings of its own perceptions, creations and projections. *STEAM Meets Story* Gloria D.

Campbell-Whatley, Diane Rodríguez, Jugnu Agrawal, 2021-06-11. This innovative STEAM guide will help general and special education teachers to increase effective instruction with adolescents grades 5-10. The authors show teachers how to link STEM concepts with popular fiction and film selections as a catalyst to launch student interactions, discussions, projects and investigations. This approach will promote problem solving and reasoning skills by initiating the scientific process rather than simply presenting established facts. The book includes a wealth of lesson plans that connect abstract STEM ideas to realistic experiences that students encounter. Sample lessons call on students to produce drawings and models that move STEM to STEAM. Grounded in popular film and some of the most read young adult books, the text includes teaching strategies found to be effective with traditionally underserved students and those with disabilities. Book Features: Standards-based STEM lessons interrelated and interwoven with writing, reading, speaking and other skills. Practical ideas and hands-on activities for engaging adolescents in both traditional and virtual environments. Guidance for working with diverse populations such as students with different abilities, culturally and linguistically diverse students, translingual students and transnational students. Templates, handouts and lessons linked to Star Wars, The Giver, The Immortal Life of Henrietta Lacks, Harry Potter, To Kill a Mockingbird, Star Trek, The Matrix, Holes and more. **The Post-Apocalyptic Novel in the Twenty-First Century** H.

Hicks, 2016-04-08. Since the beginning of the twenty-first century, major Anglophone authors have flocked to a literary form once considered lowbrow: genre fiction, the post-apocalyptic novel. Calling on her broad knowledge of the history of apocalyptic literature, Hicks examines the most influential post-apocalyptic novels written since the beginning of the new millennium, including works by Margaret Atwood, David Mitchell, Cormac McCarthy, Jeanette Winterson, Colson Whitehead and Paolo Bacigalupi. Situating her careful readings in relationship to the scholarship of a wide range of historians, theorists and literary critics, she argues that these texts use the post-apocalyptic form to reevaluate modernity in the context of the new

century's political economic and ecological challenges In the immediate wake of disaster the characters in these novels desperately scavenge the scraps of the modern world But what happens to modernity beyond these first moments of salvage In a period when postmodernism no longer defines cultural production Hicks convincingly demonstrates that these writers employ conventions of post apocalyptic genre fiction to reengage with key features of modernity from historical thinking and the institution of nationhood to rationality and the practices of literacy itself Critical Foundations in Young Adult Literature: Challenging Genres Antero Garcia, 2013-10-11 Young Adult literature from *The Outsiders* to *Harry Potter* has helped shape the cultural landscape for adolescents perhaps more than any other form of consumable media in the twentieth and twenty first century With the rise of mega blockbuster films based on these books in recent years the young adult genre is being co opted by curious adult readers and by Hollywood producers However while the genre may be getting more readers than ever before Young Adult literature remains exclusionary and problematic few titles feature historically marginalized individuals the books present heteronormative perspectives and gender stereotypes continue to persist Taking a critical approach *Young Adult Literature Challenging Genres* offers educators youth librarians and students a set of strategies for unpacking challenging and transforming the assumptions of some of the genre's most popular titles Pushing the genre forward Antero Garcia builds on his experiences as a former high school teacher to offer strategies for integrating Young Adult literature in a contemporary critical pedagogy through the use of participatory media *Young Adult Literature in the Composition Classroom* Tamara Girardi, Abigail G. Scheg, 2018-08-27 Young adult literature holds an exceptional place in modern American popular culture Accessible to readers of all levels it captures a diverse audience and tends to adapt to the big screen in an exciting way With its wide readership YAL sparks interesting discussions inside and outside of the classroom This collection of new essays examines how YAL has impacted college composition courses primarily focusing on the first year Contributors discuss popular YA stories their educational potential and possibilities for classroom discussion and exercise *Worlds Gone Awry* John J. Han, C. Clark Triplett, Ashley G. Anthony, 2018-08-22 Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as *The Lord of the Flies* *The Heart Goes Last* *The Giver* and *The Strain* Trilogy as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails
