

- To unlatch when equipped with standard door locks: rotate the release lever (located on the outer side panel of each front seat-back) rearward and fold the seat-back forward.
- When equipped with power door locks: opening a door automatically unlatches the front seat-back latch on that side. In addition, a

SEAT BACK LATCH RELEASE

manual release is located at the rear of each front seat-back. To unlatch the front seat-back manually, lift the manual release knob.

- Latching: return the seat-back to the upright position (manual door locks). If equipped with power door locks, closing the door latches the front seat back.

Front seat adjustment

MANUALLY OPERATED SEATS

- Move the lever (located on the driver's seat side cushion panel) forward to release the adjuster.
- Adjust seat to the most comfortable driving position.
- Release the lever to lock the seat in this position.

The seat back also tilts forward or rearward slightly when the seat is moved.

CAUTION: Do not adjust a manually operated driver's seat while the car is moving—the seat could move unexpectedly, causing loss of control.

ELECTRICALLY OPERATED SEATS

TWO-WAY CONTROL

- Move the switch lever (located on the driver's seat side cushion panel) in the direction of desired travel. Dual Comfort seats have a two-way electric control for the driver's seat and a manual control for the passenger's seat unless ordered with available six-way controls.

SIX-WAY CONTROL

The six-way control is located on the side cushion panel of seats so equipped.

SIX-WAY SEAT CONTROL

Owners Manual 06 Colbolt
