

Model 45C

BALDWIN ELECTRONIC ORGAN SPECIFICATIONS

The Baldwin Model 45C, recommended for Assembly in church work and home use, is designed for the particular class. It features two complete manuals, a memory, two tone pedalboards, and a comprehensive extension of tone.

A new feature of this model is the two amplification systems which are used right in the console. A two-channel system—utilizing a 30-watt amplifier for the pedal tones and a 30-watt amplifier for the manuals, is used. The 30-watt system is driven by three amplifiers individually, providing extremely low quality of tone response. In addition, previous features made for the use of electronically amplified organs.

All four basic organ tones (bass, treble, middle, and soprano) are completely represented in the sound with one of twelve tone independent tones. In addition, two pedal tones and two manual tones (bass and treble) are available. The Baldwin 45C is found in many churches of moderate to large proportions.
