Burghate,

Marketing management is centered on creating planning and implementing strategies that will help achieve wider business objectives. These business objectives can involve increasing brand awareness, boosting profits, or entering previously untapped markets. When we begin to consider the field of marketing management, it's important to look to marketing experts Philip Kotler and Kevin Lane Keller, who in their book *Marketing Management* offer a standard marketing management definition as the development, design, and implementation of marketing programs, processes, and activities that recognize the breadth and interdependencies of the business environment. The purpose of this Study Material is to present an introduction to the Marketing Management subject of MBA. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the author to assist the students by way of providing Study Material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material, and students are advised to attend regular lectures in the Institute and utilize reference books available in the library for in-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website www.wikipedia.com and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end, we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful. Readers can email their queries and doubts to our authors on tmcnagpur@gmail.com. We shall be glad to help you immediately.
